

GOVERNMENT WOULD REGULATE PRICES

Administration Asks Congress for Authority in Sweeping Bill

POWER WOULD BE LARGE

Proposal Would Permit President Take Drastic Measures When Emergency Requires

BILL SUPPLEMENTAL

WASHINGTON, May 3.—Absolute authority to regulate in its discretion the production, distribution and price of food and other necessities during the war was asked of congress today by the administration. In a sweeping bill, introduced with administration approval by Chairman Lever of the house agricultural committee, it is proposed to empower the president, under the war clause of the constitution, to take these measures whenever in his opinion the national emergency shall require; to fix maximum and minimum prices for food, clothing, fuel and other necessities and the articles required for their production; to prescribe regulations to govern the production of these commodities and to necessary to requisition the producing factories, mines or other establishments; to compel holders of necessities to release them in amounts insuring equitable distribution; to regulate exchanges in such a way as to eliminate market manipulation; to compel railroads to give preference to the movement of necessities; to levy such import duties as he finds necessary to prevent excessive "dumping" of foreign products; and to impose limitations or prohibitions upon the use of grain in the manufacture of liquor.

Could Establish Grades.
In addition the secretary of agriculture would be empowered to establish food grades, to license and control the manufacture, storage and distribution of foods, to prescribe the percentage of flour to be milled from wheat and to regulate the mixing of wheat flour with other flour in the making of bread and other food.

In a statement tonight Mr. Lever declared that there was nothing in the measure to disturb legitimate business activities because it is hoped that the mere conferring of the more extreme new powers will be sufficient without its becoming necessary to exercise them. It is known that officials of the executive branches of the government hold the same view believing that with such effective weapons in their possession they will encounter no difficulty in lining up on the side of the public interest without legal action, all recalcitrant private agencies.

Supplements Food Bill.

The bill is supplemental to the administration food measure introduced in the house earlier in the week providing for a survey of the country's food resources and conferring certain powers to prevent food speculation. This measure was ordered favorably reported from the agriculture committee today, after the committee had reduced the appropriation carried from \$25,000,000 to approximately \$20,000,000 and had eliminated a section authorizing the secretary of agriculture to order the immediate sale of any food in such condition that unless promptly disposed of it will become unfit for use. The section will be incorporated in a coming third measure which is to confer broad powers on the council of national defense. Mr. Lever expects to get both of the bills up for action in the house next week.

The first already is pending in the senate and the supplemental measure will be presented there tomorrow.

CONFEREES TO TAKE UP WAR ARMY BILL TODAY

WASHINGTON, May 3.—Senate and house conferees agreed tonight on the army appropriation bill carrying about \$280,000,000 for the support of the regular establishment for the fiscal year ending in June, 1918, and on the military academy bill. Tomorrow they will take up the war army draft bill with the hope of returning it for final action before the end of the week.

DAMAGE NORTHCLIFFE COUNTRY HOME

NEW YORK, May 3.—Lord Northcliffe's country home on the Isle of Thanet was damaged by shell fire when German destroyers made a raid on Margate and Broadstairs on Feb. 26. Lord Northcliffe was in his home during the attack. The wife and daughter of his gardener were killed and their cottage practically destroyed.

These facts were made known by steamship passengers arriving from abroad today.

AUTHORIZES BANKS TO TAKE SUBSCRIPTIONS

McAdoo Telegraphs all National and State Institutions

Secretary Enlists Their Co-Operation in \$2,000,000,000 Bond Offering and Requests Rough Estimate of Amount of Bonds Each Would Take for Itself and Its Patrons.

Washington, May 3.—Secretary McAdoo today telegraphed the entire list of 27,153 national and state banks and trust companies in the United States authorizing them to receive subscriptions for the \$2,000,000,000 bond offering, enlisting their co-operation and requesting them to telegraph a rough estimate for the amount of bonds each would take for itself and its patrons.

Can Render Invaluable Service.
"You can render an invaluable service to your country," Mr. McAdoo told the banks, "by receiving subscriptions and co-operating with the federal reserve bank in this district. Will you kindly do this and telegraph me, at government expense, as soon as practical a rough estimate of the amount of bonds you think will be subscribed by your bank and its customers?"

To all clearing house associations in the country Mr. McAdoo sent the following telegram: "Will you kindly convey to the members of the clearing house my appreciation of the tender of services I have received from them and beg them to co-operate heartily with the federal reserve bank of your district in securing subscriptions to the \$2,000,000,000 three and one-half percent loan? I think the appointment of local committees to assist the federal reserve bank in its work will be extremely helpful."

Needs Determined Amount.
"The amount of the initial loan has been determined by the needs of the government and not arbitrarily. It is impossible to meet the enormous financial requirements of our own government and the allies in carrying on the war with a less initial subscription than \$2,000,000,000. The enthusiastic and patriotic co-operation of the banks and bankers of the country will guarantee the success of the undertaking."

To the federal reserve banks upon which will fall the heaviest amount of detail work in connection with the flotation of the issue Mr. McAdoo sent telegrams embodying his messages to the other institutions and notifying them that the results of the estimates asked for would be placed at their disposal. The result of the first announcement of the loan has been a deluge of subscriptions aggregating many millions. Most of these came in by wire to the treasury.

Virtually every large city and every state in the union was represented in the hundreds of messages which poured in with increasing volume till the offices closed.

Negotiations Continue.
Negotiations continued today with representatives of the nations to which the United States is extending credit. Count di Cellerio, the Italian ambassador, received the full amount of the first \$100,000,000 loan made by this government to his country.

The money was paid out of proceeds of the first offering of treasury certificates of indebtedness and other funds in the treasury.

Subscriptions to the second offering of treasury certificates were received during the day by the federal reserve banks. Indications are that the secretary will issue an announcement shortly as to the size of the second offering and call for the proceeds within a few days.

The \$100,000,000 loan to France, announced by Mr. McAdoo a few days ago, will be turned over to Ambassador Jusserand in whole or part, within a day or so.

TWO-THIRDS OF IOWA WHEAT CROP KILLED

DES MOINES, Ia., May 3.—Only about one third of the winter wheat acreage in Iowa will produce a crop this season, according to reports received here by the Iowa Weather and Crop Service and made public today. It was announced that at least two thirds of the crop was winter killed. Considerable grass and alfalfa were killed, the report states, by the dry season last year and by a lack of snow the past winter together with freezing weather. These reports show a larger oats acreage than normal and point to the planting of a large amount of ground to corn. Despite the retarding effect of cool weather the crop bureau announces big acreages are shown for potatoes and garden truck.

Fruit prospects generally are considered fair.

SUBMARINE SINKS BRITISH TRANSPORT

LONDON, May 3.—The British transport Arcadian was sunk by a submarine April 15. It is believed 279 men were drowned.

"The Arcadian was torpedoed in the eastern Mediterranean. She went down five minutes afterward."

"Nineteen officers, ten men with naval ratings, thirty four members of the crew and two civilians are among the missing who it is presumed were drowned."

The Arcadian, 8,939 tons gross, was owned by the Royal Mail Steam Packet company of Liverpool. She was 500 feet long and was built at Barrow in 1899. She was withdrawn from the passenger service early in the war and taken over by the British admiralty.

ARRANGE FOR JOINT ACTION TO LOWER WHEAT

OTTAWA, Ont., May 3.—An announcement was made in parliament today by Sir Thomas White, the minister of finance that plans are under way for joint action by Canada and the United States to reduce the price of wheat.

Sir Thomas said the price of flour, wheat or any other necessity could not be regulated by the Canadian government alone. To be successful the regulation of food prices must be the simultaneous action of the United States and Canada, he declared.

He stated that Sir George Foster, the Canadian minister of trade and commerce now in Washington is discussing with the American authorities the fixing of maximum prices for wheat on the whole of the North American continent.

ALLIES MAY CREATE PURCHASING COMMITTEE

Financial Expert of British War Mission Forecasts Action

Asserts Negotiations To This End Still are Incomplete—Believes Germany Will Be Bankrupt in Credit Markets After the War.

Washington, May 3.—Creation of a central purchasing committee in Washington for all supplies bought in the United States for the allied governments was forecast here today by Sir Hardman Lever, financial expert of the British war mission.

Sir Hardman was careful to say that negotiations to this end were incomplete. Discussing the world financial situation the British expert expressed the opinion that Germany will be virtually bankrupt in the credit markets after the war.

The Tontine governments having pyramided one internal loan upon another, he indicated, their interest charges would be so great that he believed they would either have to repudiate a large part of their debt, which in itself would be disastrous, or face inability to buy the enormous quantities of material they would need for reconstruction.

Aid Relieves England.

Sir Hardman said the financial aid of the United States had relieved Great Britain of a load of anxiety.

The British mission today spent one of its busiest days. Some of the members held breakfast conferences with American officials. Tonight Mr. Balfour entertained at dinner Secretary and Mrs. Lansing, Ambassador and Madame Jusserand, Assistant Secretary and Mrs. Breckenridge Long, Sir Richard and Lady Crawford, Counselor and Mrs. Barclay and the American attaches to the mission.

The foreign secretary spent the morning largely in conference with Secretary Lane at the interior department. In the afternoon he received Sir Richard Shackleton, the Antarctic explorer, the Serbian minister, the Italian ambassador, the Russian charge and a committee of the trade members of the mission.

Admiral de Chair spent the whole day in conference with bureau heads at the navy department and General Bridges called at the war college on Secretary Baker and on army hospital affairs.

FORMER OFFICIAL OF PENNSYLVANIA ROAD DIES

PHILADELPHIA, May 3.—James R. Wood, formerly passenger traffic manager of the Pennsylvania railroad company and one of the most widely known railway executives in the country, died yesterday at Atlantic City it was announced today. He was 74 years old and retired four years ago under the company's pension regulations.

Mr. Wood was born at Auburn, N. Y., and began his railroad career in 1869 as secretary to the superintendent of the Burlington and Missouri River railroad at Creston, Ia. He later served in official capacity on the Michigan Central, Chicago & West Michigan and Chicago, Burlington & Quincy railroads and in 1881 was appointed general passenger agent of the Pennsylvania which position he filled until his appointment as passenger traffic manager in 1903.

It was upon Mr. Wood's initiative that the first "Limited" train in the sense of exclusive accommodations and high speed, was inaugurated in this country.

MINER CONFESSES TO KILLING WIFE AND SON

DUBUQUE, Ia., May 3.—At Benton, Wisconsin, fifteen miles east of Dubuque at an early hour this morning, H. C. Campbell, employed as an ore hauler from the zinc mines, confessed to murdering his wife and eighteen months old son last Thursday. He pushed his wife into a water-filled mine shaft and threw the child in after her and stood on the brink of the shaft until their bodies disappeared. The bodies were discovered Monday by boys playing about the shaft. Infatuation for a Dubuque woman, Campbell alleges, prompted him to commit the crime. He was in Dubuque at the time the bodies were discovered and was arrested when he returned to Benton Tuesday. Neighbors had supposed the mother and child were on a visit to relatives.

CARDINAL FARLEY IMPROVING

New York, May 3.—Cardinal John M. Farley, who underwent an operation at his home here yesterday, was said this morning to have passed a comfortable night. "His Eminence is very well," Monsignor M. J. Lavelle, vicar-general of the diocese, announced. "He rested well and is in excellent condition."

PLAN NATIONAL SERVICE RESERVE

Would Be Made Up of Men Not Subject to Draft and Women

WAR DEPT. APPROVES

Members Would Be Available for Any Service They Could Perform for Government

NINE MEN AT HEAD

WASHINGTON, May 3.—Plans for a great national service reserve made up of men not subject to draft into the army and of women, already approved by the war department, were submitted to the council of national defense today at a conference of the council with state governors and representatives of state defense councils.

Members of the reserve would be available for any service they could perform for the government.

Pepper Presents Plans.

The plans were presented by George W. Harton Pepper, a representative of the Pennsylvania state defense council and chairman of national committee of patriotic and defense societies.

The reserve would be headed by a board of nine nationally known men, which would operate thru a national committee of members from all the states. Under the national committee there would be state and district committees and in Washington a permanent headquarters committee would sit to carry on administrative work.

Membership on the board of nine has been tentatively accepted. It was stated by former President Taft, Major General George W. Goethals and Henry L. Stimson, former Secretary of war.

The purpose of the organization, as outlined to the defense council, would be to furnish any military or civic service which could not be performed by enlisted men, to aid in recruiting, to work under any private employer, engaged on government contracts, or on farms and to supply the army and navy.

When not in active service reserve members could aid in home defense. They would be given compensation for the time spent in government service. The defense council today gave the governors and state representatives an outline of a program for state assistance to the federal government in the conduct of the war. They were told that state defense councils could do these things:

What Councils Can Do.

Promote patriotic spirit and educate the people to the magnitude of the task ahead. Aid in recruiting the national guard, assist in carrying out the enrollment for the new army and in determining exemptions from draft; maintain labor standards, establish labor clearing houses, assist in getting workers to use their "broken time" on the farms; assist in getting idle men and boys to the farms; afford facilities in aiding the government to collect revenues; help float the "liberty loan"; organize central food production committees to work with the state defense councils; supply their own food requirements wherever possible and reduce waste in the home.

Members of the federal council's organization outlined the length to the governors steps the government is taking to put the country in a state of preparedness.

CHICAGO BAKERS RATIFY AGREEMENT

CHICAGO, May 3.—More than 2000 members of the Bakers' Union who have been on strike since Saturday late today ratified the agreement reached last night between their representatives and the employers in the office of the federal district attorney. All points of the agreement were ratified, the principal ones of which were an increase of \$2 a week in wages and concession to the employers of the right to maintain non-union foremen in the shops.

The bakers will resume work as quickly as agreements can be signed with the several shops.

MAN BEATS HIS WIFE UNCONSCIOUS; SUICIDES

KEOKUK, Ia., May 3.—With his two children as witnesses, Daniel Merritte, 59 years old, last night beat his wife into unconsciousness with a hatchet at their home here and escaped, later to return and end his own life in a room overhead by slashing his throat. A Mrs. Merritte is reported to be in a critical condition at a local hospital. The man's actions are attributed to family troubles.

BEGIN NEGOTIATIONS

New York, May 3.—Negotiations for establishing relations between the Bank of England and the federal reserve bank of New York which were begun by the governors of the respective institutions some months ago have been completed it was announced tonight.

WAR COUNCIL NEARING END OF ITS LABORS

LONDON, May 3.—The imperial war council, which has been in session for several weeks and has been attended by eminent representatives from all parts of the empire except Australia, is nearing the end of its labors after considering questions covering a wide field and adopting resolutions on matters of far-reaching importance. The secretary of state for colonies, Walter Hume Long, in a statement dealing with the work of the conference says some matters dealt with are of a very confidential character at present and it probably will not be possible to publish the resolutions or debates on these subjects until the end of the war. However, he quotes a number of important resolutions among which is one approving imperial preference in the matter of trade.

MRS. VAWTER TESTIFIES IN HUSBAND'S DEFENSE

Admits Previous Intimacies With Dead Man

Witness States a Few Minutes Before Death He Had Attacked Her—Asserts She Always Repelled His Advances When Not Drunk

Christiansburg, Va., May 3.—Mrs. Charles Vawter testifies today at the trial of her husband, the Virginia Polytechnic professor charged with murdering Stockton Heth, Jr., admitted previous intimacies with Heth, but declared that a few minutes before Heth received his death wounds he had attacked her. Mrs. Vawter, baring her life in defense of her husband said she was infatuated with Heth, but always had repelled his advances when not under the influence of liquor.

Attempt to Prove Insanity.

Following the introduction yesterday of letters written to Heth by Vawter in which the latter revealed that he knew of the younger man's relations with his wife and at the same time asked Heth to pay a whiskey bill, the defense began introducing testimony to show Vawter insane at the time. Several physicians testified today that Vawter apparently was unbalanced when he wrote Heth about affairs in the Vawter household.

Mrs. Vawter today told a dramatic story of her home life at Blacksburg. For 3 years she asserted Heth had been "dogging her tracks" always playing her with liquor.

The witness told of one occasion when Vawter saw Heth trying to embrace her. Vawter denounced Heth and later Heth brought Vawter into his room and put him to bed. On the following morning she said she found finger prints on her husband's throat. On the night of the tragedy, Mrs. Vawter said, Heth was in the Vawter home when she and her husband returned. Heth was drinking all retired. She was awakened when she heard her little child coughing. She went to the hallway to get medicine and Heth called to her.

Asked Her in His Room.

"Come in," she quoted Heth as saying, "I want to talk to you."

"I will not," she said she answered. Heth then caught her arm, she said and she resisted.

Upon hearing Professor Vawter moving around, she said she ran across and went into the room of her children. Her husband went downstairs and got a pistol, she said, and when she asked him to give it to her so she might kill herself, he refused. A struggle between Vawter and Heth followed and in the course of it came the pistol shots that ended Heth's life.

LYLE URGES FIXING OF MAXIMUM COAL PRICES

CHICAGO, May 3.—Establishment of maximum prices for coal of the various grades was urged by L. R. Lyle of the Minneapolis, St. Paul and Ste. St. Marie railroad as the only escape from famine prices in his testimony before the federal trade commission today. Hearings were begun yesterday to determine the situation regarding coal and the commission is expected to end its labors here tomorrow. The facts gathered in Chicago and elsewhere will be laid before congress within a few weeks with a recommendation for action it was said.

Mr. Lyle said speculation and a general scramble to get coal at once for future use are sending the market up.

Fred A. Bushnell of the Northern Pacific railroad said more cars for the railroads was the only solution of the coal problem. The committee gained information that last year the Illinois mines were able to operate 230 days out of the year because they were not supplied with sufficient cars to remove their output.

STILL PLENTY OF ROOM FOR MEN IN CAMPS

WASHINGTON, May 3.—Altho the full allotted quota of 40,000 men probably will be enrolled in the officers' training camps when they open May 15, there still is "plenty of room for men of the right qualities" in a statement saying each of the sixteen camps seemed assured of its full allotment of 2,500 applicants for commissions, the department appealed for further recruits among men of proven ability, and pointed out that the camps, while designed primarily to train officers for the great war army, would provide excellent opportunities for civilians to work their way into the line of the regular army.

FRENCH WAR MISSION LEAVES WASHINGTON

Special Train Due in Chicago About Noon Today

Elaborate Entertainments and Receptions are Planned for Members of Mission and Hundreds of Thousands are Expected to Greet Them

Washington, May 3.—The French mission headed by Rene Viviani, Marshal Joffre and Admiral Choeprat, left here this afternoon for a tour of middle western and eastern states after being enthusiastically received on the floor of the house of representatives. The special train bearing the visitors is due in Chicago about noon tomorrow and officials in communities thru which it will pass will be notified in time so people along the route may greet the distinguished Frenchmen.

Withheld Routes of Travel.

Upon leaving Chicago the mission will proceed to St. Louis, Kansas City, Springfield, Ill., Philadelphia, New York and Boston, returning to Washington probably in ten days. As a measure of safety, the state department has withheld the routes to be traveled and times of arrival and departure in the various cities to be visited.

Elaborate entertainments and receptions have been planned for the members of the mission and hundreds of thousands of people are expected to greet them. From day to day as many details as can be given with safety will be announced by the department of state. A great crowd grouped at Union Station to see the party off. Outside of three tall flag-staffs the flags of the United States, France and Great Britain were flying.

Crowd Applauds.

As the visitors and their escort stepped from automobiles and walked to the train entrance, the crowd separated leaving a broad path and cheered and applauded. Officials representing the state, navy and war departments and Ambassador Jusserand and other diplomats followed the Frenchmen to their train while the crowd closing in pressed against the entrances. The Marshal, M. Viviani and Admiral Choeprat stood on the platform until the last moment chatting with officials and saying "au revoir."

Just at 3:30 o'clock the train began to move, the crowd cheered again and the Frenchmen on the observation platform waved their hats until their car disappeared in the distance.

School Children to Honor Joffre.

Chicago, May 3.—Three hundred thousand school children will honor General Joffre tomorrow, principals have been instructed to hold patriotic exercises at the afternoon session of the schools and to adjourn the sessions fifteen minutes before the regular closing time.

In conformity with a resolution adopted by the county board to close the county building at noon tomorrow in honor of the visit of the French commission the superior and circuit courts and the clerks' offices of these courts will close at the same time.

Oglesby to Meet Frenchmen.

Springfield, Ill., May 3.—Governor Oglesby will meet the French commission tomorrow at the Illinois state line and escort them to Chicago as a representative of the governor. Governor Lowden expects to leave for Chicago tomorrow morning to participate in the welcome to the visitors.

COMMITTEE AGREES ON APPROPRIATIONS

SPRINGFIELD, Ill., May 3.—Appropriations totaling \$11,333,844 for maintenance and buildings at state charitable institutions during the next two years were agreed upon today by the house appropriations committee, incorporated in a bill and reported to the house for passage.

The total is less than \$50,000 in excess of the amount required for operation and buildings at the institutions during the past two years. Senate leaders conferred with the house committee when the bill was being drafted and it is understood few important changes are likely.

The appropriations for two years, exclusive of buildings, are divided among the various institutions as follows:

Elgin State Hospital	\$ 751,929
Kankakee State Hospital	1,263,930
State Psychopathic Inst.	35,075
Jacksonville State Hosp.	791,180
Anna State Hospital	722,620
Waterfront State Hospital	661,180
Peoria State Hospital	915,680
Chester State Hospital	115,100
Chicago State Hospital	1,276,930
Alton State Hospital	244,260
Lincoln State School and Colony	897,800
State Colony for Epileptics	206,910
Illinois School for Deaf	218,000
Illinois School for Blind	198,497
Industrial Home for Blind	194,950
Soldiers and Sailors Home	576,090
Soldiers Widows Home	76,910
Soldiers Orphans Home	228,255
Charitable Eye and Ear Infirmary	168,440
State Training School for Girls	264,500
St. Charles Training School for Boys	482,700

PREPARE TO REPLACE MEN WITH WOMEN

Chicago, May 3.—The Chicago, Milwaukee and St. Paul railway, the Chicago and Alton railroad and the Monon Route today joined the ranks of railroads which are preparing to replace men entering the national service with women.

It is not contemplated to employ women in the operation of trains but they will be used at first in office and clerical work.

BRITISH CAPTURE POINTS OF VANTAGE

Fourth Period of Intensive Fighting of Spring Offensive in Progress

TAKE FRESNOY VILLAGE

Germans Suffer Severe Losses All Along Line—Hundreds of Men Made Prisoners

FRENCH BITE INTO FRONT

Another period of intensive fighting, the fourth since the spring offensive began is in progress between the British and Germans over a front of about twelve miles in the region from the west of Vimy southward to the west of Quant.

After their customary terrific artillery preparation the British along the entire front surged forward in the early hours of the morning, and through Thursday were at grips with the enemy.

Hold Several Points.

Nightfall found the British in possession of several points of vantage, which they had captured in the face of most stubborn resistance and held with a withering fire of machine guns and rifles against powerful counter-attacks.

Berlin asserts that the British attempt to break thru the German line failed under heavy casualties. The British war office makes no claim the troops of Field Marshal Haig pierced the German front, but it does assert that west of Quant, and near Cherisy goodly salients were driven into the line and that the village of Fresnoy and enemy positions north and south of the village on a front of two miles and a trench system north of Oppy were captured and held by the British.

The taking of Fresnoy, which fell to the lot of Canadians, who thus are shown to have pushed back the German line four miles since their gallant capture of the Vimy ridge, gives them the added honor of having cut their way thru the famous Hindenburg line.

Germans Suffer Losses.

The Germans suffered severe losses in the attacks all along the line and also lost hundreds of men made prisoner by the British. Wednesday night in Champagne the French again hit into the German front east of Mont Haut and made prisoner more than 200 Germans. In the Avocourt wood, in the Verdun sector they also invaded enemy trenches. Thursday spirited artillery duels were in progress along the Aisne and Champagne fronts, but the infantry remained in the trenches.

The operations on the other fronts continue of minor character as compared with the offensive on the front in France.

Russia Intends to Stick.

That Russia intends to stick with her allies thruout the war has again been vouchsafed by the new provisional government. In notes to the Russian representatives abroad the government says that the change in the regime in Russia cannot afford a pretext for any slackening on the part of Russia in the common struggle of all the entente allies.

An unofficial report from Athens says Alexander Zaimis, former premier, will form a new Greek government. Zaimis is friendly to the entente. The British transport Arcadian has been sunk in the Mediterranean by a submarine. Many of the ship's company are believed to have perished.

APPLIES TO HAVE ODD AGREEMENT RESCINDED

NEW YORK, May 3.—Mrs. Blaquitta Errazuriz de Saules who obtained a divorce from John Longue de Saules, former Yale football star

PEORIA SEES THE HANDWRITING

(Springfield Journal)
Mayor Woodruff of Peoria, five times elected on a "free and easy" platform, announces a radical change of policy. Hereafter, he says, all state laws and city ordinances for the regulation of dram-shops are to be rigidly enforced.

For many years Peoria has had a law-enforcement league. For many years it has been the standing joke of the town. The mayor had good-naturedly listened to its pleas and ignored them as unworthy of attention. The council has received its petitions and pigeon-holed them. Its leaders have been the butt of newspaper caricature and editorial ridicule. They have been ostracized in Peoria business circles, and made to feel that they were regarded as inimical to the town's well-being. It has not always been safe for them to live in the town.

But Peoria has sensed something. Recent events in Springfield and Danville have caused its officials to sit up and take notice. It has occurred to them that what the voters of those cities did in recent local option elections can be duplicated in Peoria. And Mayor Woodruff, apparently, is convinced that it will be done in Peoria unless he changes his policy with reference to the matter of law-enforcement.

Whether the decision comes in time to save the Peoria dram-shops is a matter of doubt. It may allay the local tempest, but it will require the radical reformation of thousands of Peorians even to check the swelling demand for national suppression of the dram-shop.

THE GOVERNMENT LOAN.

Jacksonville bankers have informed the treasury department at Washington that they will use their good offices in aiding the government in the disposal of the bonds occasioned by the war loan of \$2,000,000,000. Bankers in many other cities have taken like action and in some cities newspapers have voluntarily put forth advertising campaigns to acquaint the people with the necessary method of procedure if they wish to become subscribers to the loan.

There is probably little fear on the government's part but that the loan will be promptly taken up, but it is evidently the desire that the bonds shall be widely distributed and in the hands of investors small and large. Investment in such bonds occasioned by the war will serve to give expression to the people's loyalty to their government and to build them more closely in the cause in which they are now enlisted. If the demand for the bonds far exceeds the total issue new notice will be given to the world and to Germany of the unanimity of sentiment here and of the thro confidence of the people in the government.

The issue is likely to be over-subscribed for another reason—that is, a 3 1/2 per cent investment not subject to taxation is particularly

attractive at this time when there is every prospect of heavy revenue taxes being levied against the stocks of corporations. Uncertainty as to just how heavy a tax will be placed upon corporations will lead many investors to dispose of securities now held to re-invest in these government bonds, or they will buy bonds with money on deposit originally intended for investment along other lines.

MUST INCREASE OUR SELF-RELIANCE.

While the shortage of the food supply of various kinds is both annoying and expensive, it is very likely that good may come out of this evil. In Chicago there has been a great outcry about the hardship resulting from the bakers' strike or a few days, when the facts were that the available supply of flour was not less than it had been.

Hundreds of thousands of people in the big city have grown so accustomed to having their bread delivered or buying it at some nearby grocery that they were appalled at the possibility of having to do baking on their own account. With many of the women no doubt this feeling was the result of the knowledge that they did not have the slightest idea how to do baking. A continuance of the strike would inevitably have resulted in some hurried studying of the cook books and in other instances it would have resulted in the finding of some satisfactory substitute for flour.

It is this idea which will be applicable along many lines in the case of the supply shortage. The people will be forced to use their own brains and hands to a greater extent and there will be some new development of the hardy virtues of industry and self-reliance so characteristic of the forefathers. With modern civilization and improvements it is so easy to take advantages and convenience for granted and we think little or nothing about the source from whence they come—the labor or brain power that made them possible.

In Germany the people have not learned the ways of luxury to the extent that we have here and there is a greater individual efficiency. But since the war even that efficiency has been increased, that provident spirit enhanced, and the people have learned about substitutes for some of the things to which they were daily accustomed. No doubt changes in the ways of living have been brought about which have been adopted not only for war time but will be retained thereafter, as the benefits are shown. The same thing will happen in the U. S., where the field for improvement in efficiency and self-reliance is much greater than it was in the kaiser's realm.

Rippling Rhymes By WALT MASON

The Warrior.

When I begin to kill off Germans,
my motives will be just; no thirst
for blood, my course determines—I
slay because I must. I pray for
peace while there seems chance of
gaining such a boon; but now
grind my swords and lances, and
hum a martial tune. Long, long
I hoped the nutty kaiser would see
where he was wrong, that he'd have
counsel, saner, wiser than he has
had for long. But he is drunk with
blood, besotted, in carnage he would
swim; he'll have no sense till I have
swatted the sauerkraut out of him.
I stood and looked on bloody
murder as he living "notes" explained,
until the thing could go no further,
if honor were retained, the patience
of this mighty nation, made to ap-
peal to Bill; so now we tire of ex-
planation, we load our guns to kill. No
more I'm preaching tiresome ser-
mons on peace, and kindred boons;
I'm out to shoot a bunch of Germans
and swipe their pantaloon. I'm done
with peace, O men and brothers, un-
til this war shall cease; and I have
little use for others who are prating
"Peace."

THIS DATE IN HISTORY

May 4, 1833—Sandy Bluffs postoffice in Morgan county, name changed to Winchester, Gen. Daniel Roberts, postmaster.

BLUFFS

Mrs. B. F. Miller who has been visiting relatives here for the past month, returned to her home in St. Charles, Ia.

L. G. Barker and family have moved to Springfield and the place vacated by them will be occupied by John Kennedy and family of Springfield. Both are in the employ of the Wabash at this point.

Miss Esther Six was a shopper in Springfield Wednesday.

Samuel Brown, aged 16 years and a former Bluffs boy, now of Springfield, enlisted in the U. S. navy Thursday of last week and left Monday for Chicago via Peoria where he will go in training on Lake Pont.

James Sawyers, George Gelsinger, J. E. Kory and Lafe Six were court visitors Thursday.

Mrs. Ewing Lankford and Perry Lankford were visiting relatives in Merritt Wednesday.

Mrs. Charles Bergner and daughter, Miss Iota, were shopping in Springfield the first of the week.

Ben Baird of Hannibal, Mo., is the guest of his parents, Mr. and Mrs. A. W. Baird.

The school board met Wednesday evening and employed the following teachers for the coming year: Primary, Beulah Hatfield, 2nd and 3rd grades, Marie Hale; 4th and 5th grades, Zeta Morris; 5th and 6th grades, Edith Keith; 7th and 8th, Bess Chapman. The teachers for the high school have not been secured.

Mrs. Thomas Reid was a business visitor in Springfield Wednesday.

PATRIARCHS OF DISTRICT IN SUCCESSFUL MEETING

Two Well-Attended Sessions Held at I. O. O. F. Temple with Three Officers Present from Grand Encampment—Prohibition Resolution Passed—Meredosia Next Meeting Place.

The seventh annual meeting of the 16th district, I. O. O. F. Encampment Association held here Thursday was accounted most successful. The afternoon session was a very profitable one and in the evening Patriarchs to the number of one hundred and twenty gathered for the joint meeting of the two Jacksonville encampments and the banquet which followed. Three grand encampment officers were in attendance: Sam J. Baker of Olney, grand scribe; Norman Waltrip of Urbana, grand representative and Charles D. Merritt of Salem, grand treasurer.

Next Meeting at Meredosia
Meredosia was chosen as the next place of meeting. The time, whether next fall or in the spring, was left in the hands of the executive committee.

The committee on resolutions which consisted of Carl H. Weber, J. T. Osborne and J. Marshall Miller, presented a report in which the association asks the president and congress to prohibit the use of liquor during the period of the war for the purpose of conserving the food supply. J. Marshall Miller on behalf of the committee presented this resolution. The association also sent greetings to the 17th district association in convention at Springfield.

The New Officers
Charles H. James of Meredosia was elected president and Carl H. Weber was re-elected secretary. G. W. Norton of Beardstown was elected treasurer.

The sessions were held in the hall of Temple Encampment No. 19 and were opened at 3:30 o'clock. A historical lecture was given by Sam J. Baker, grand scribe and this was followed by a school of instruction, conducted by Norman Waltrip, grand representative. The question box was conducted by the president, Henry Higgins of Winchester. An address was made by F. J. Heintz, past grand patriarch, by Mr. Higgins, retiring president and Mr. James, the new president.

At 6:30 o'clock adjournment was made for luncheon, served by the ladies of Tent No. 1. Wives of the Patriarchs, and at 7 o'clock the encampment was called to order by Judge William E. Thomson, a past chief patriarch of Ridgely No. 9. Mayor Rodgers delivered a hearty address of welcome to which appropriate response was made by Mr. Higgins.

Eight Candidates Received

Work in the three degrees was exemplified by the degree teams of the two Jacksonville encampments. No. 19 had charge of the work in the Patriarchal degree and No. 9 conferred the Golden Rule. The Royal Purple degree was conferred by a joint degree staff. Two candidates were received from Temple encampment: John Miller and the Rev. W. E. Spoons. The candidates received by Ridgely encampment were H. A. Perrin, superintendent of city schools; Henry Cade, Albert Crabtree, Reaugh Jennings, John W. Wright and R. D. Mawson, all of Murrayville.

When the degree work was finished the Patriarchs adjourned to the dining hall where an excellent banquet was served. Mr. Waltrip, the grand representative, spoke a few words before the serving and when the repast was completed Carl H. Weber introduced Rev. Mr. Spoons as toastmaster. Brief talks were made by Supt. Perrin, James Dickens of the Temple encampment degree staff and Mr. Higgins, the past district president.

Following are the delegates present from encampments of the district:

Charles H. James—Meredosia No. 166.
L. G. Burch and M. VanWinkle—Waverly No. 86.
W. N. Brewer—Ridgely No. 9.
C. O. Bayha—Temple No. 19.
Henry Higgins—Winchester No. 66.

TO PLACE BOATS IN COAST PATROL SERVICE

GREAT LAKES, Ill., May 3.—Many privately owned motorboats and lake yachts, tendered for government use, shortly will be ordered into the coast patrol service, according to a statement made by Captain W. A. Moffett, commanding the United States naval training station here, today, after his return from Washington.

He asserted that work of fitting out these craft will be rushed and that they "will be ordered to the front as soon as possible." Captain Moffett declined to explain what he meant by "the front."

ORLEANS GIRL TO TAKE TREATMENT FOR RABIES.

Mr. and Mrs. Frank Dannerbarger of Orleans left for Chicago this morning via the 12 o'clock train, accompanying their daughter, Lillian, to Chicago, where the little girl will take treatment at the Pasteur Institute, for the bite of a rabid dog. The little girl was bitten while playing near her home the first of the week. The dog was killed and the head sent to Chicago for examination. A telegram received by Mr. Dannerbarger late Thursday evening brought the word that traces of rabies had been discovered and that the child should be brought for treatment at once.

NAMES COL. LANG BRIGADE ADJUTANT

Springfield, Ill., May 3.—Col. E. J. Lang of Paris, Ill., who resigned recently as commander of the Fourth Illinois Infantry today was appointed by Governor Lowden as brigade adjutant of the second brigade with the rank of major.

MORTUARY

Saunders

J. H. Redburn, residing north of the city received a message Thursday evening of the death of his brother-in-law R. H. Saunders, which occurred at Cape Girardeau, Mo., at 2:30 Thursday afternoon. Deceased was 54 years of age at the time of death. He is survived by his wife. He was a printer by trade and was foreman of the Cape Girardeau Republican. Death was caused by pneumonia. Mr. Redburn's sister, Mrs. W. C. Wills of Quincy died just three weeks ago yesterday and her death also was caused by pneumonia. Mr. Saunders' funeral will be held at Shelby, Mo., Saturday afternoon.

Osborne

Mrs. Maria Osborne an old and highly respected resident of Murrayville died at her home in that town Thursday morning at 5:30 o'clock. Mrs. Osborne was afflicted with pneumonia, which coupled with a weak heart, caused her death.

Deceased was the daughter of Horace and Eliza Phillips and was born five miles east of Jacksonville in 1838. She grew to womanhood in that vicinity and was united in marriage to James C. Osborne February 10, 1857.

To this union thirteen children were born. Mr. Osborne died in November 1916 and two children preceded her in death. Those surviving are: Henry, John W., Harvey U., James Edward, William, Mrs. Mary Blakeman, Mrs. Julia Sullivan, all of Murrayville; Benjamin Franklin of Strathmore, Canada; Charles W. of Bozeman, Idaho; Robert M. of Jerome, Idaho, and Mrs. Hannah Harper, of Coates, Kans. One brother, Nelson Phillips, of White Hall also survives.

Mrs. Osborne was one of the oldest residents of Murrayville. She was a woman possessed of many admirable traits of character and was devoted to her home and her children. Her going will bring sorrow to many hearts.

Funeral services will be held from Murrayville M. E. church Saturday afternoon at 1:30 o'clock in charge of the pastor, the Rev. W. H. McGhee. Burial will be in Murrayville cemetery.

Henry

Mrs. Earl Henry died at 11:30 o'clock Thursday night at the family home, 506 East College street. Death came after an illness of several weeks. The husband and one child survive. Further notice will be made in tomorrow's issue.

—MANCHESTER—

Mr. and Mrs. John Akers took their son, Ralph, to Jacksonville Wednesday where they consulted Dr. Day in regard to a head trouble with which he has been suffering.

Mrs. Joseph Baker of Roodhouse spent Thursday with her daughter, Mrs. James Travis and family.

Mrs. Anna Caldwell and Miss Emma McCracken went to St. Louis Thursday where they will spend several days with Mr. and Mrs. Chester Brown and family.

Mr. and Mrs. J. C. Andras, Jr., Mr. and Mrs. L. C. Funk and Mrs. Charles Woodall attended the funeral of P. E. Strang in White Hall Thursday.

Mrs. Eliza Smith spent Wednesday in Roodhouse at the home of C. D. Neal. Mr. Neal is in very poor health.

Mrs. C. N. Boyer was a Jacksonville visitor Wednesday.

Mrs. Thomas Reaugh of Jacksonville is visiting her mother, Mrs. Margaret Wyatt.

Miss Lennie Chapman visited her brother, Robert Chapman, a patient in the Passavant hospital in Jacksonville Wednesday.

DISCHARGE HEAD OF RURAL CARRIERS

Washington, May 3.—Fred L. White of Buckhead, Georgia, a rural mail carrier and president of the Rural Letter Carriers' Association, has been discharged from the postal service, the postoffice department announced today because he circulated false statements regarding the re-adjustment of rural routes, and when questioned about them gave answers that the department declares were "grossly incorrect."

Denham of Bloomington called on local merchants yesterday. Mrs. Ernest Tilton and children have gone to St. Louis to spend several days with relatives. Miss Eloise Hall of Golconda was

MANY LOCAL APPLICANTS FOR OFFICERS' TRAINING

Jacksonville Will be Well Represented at Ft. Sheridan if Examinations are Satisfactory.

Jacksonville has already sent a goodly number of representatives to Springfield to take the examination for the officers' training camp. Of the number the majority are students from Illinois colleges. In addition to those who have already taken the examination there are four other young men who have already received their papers and will go to Springfield for the examination within the next two or three days. Among the Illinois college men who have passed the examination are William A. Berryman, Smith Gill, Fred Stewart, Glen Strickler, Elmer Lukeman, Rex Gary, Ira Fanning, Edgar Becker and Elmer Gaylord. Men who are awaiting instructions to go to Springfield are Hansel Wilson, Harry McLaughlin, Earl Sooy and Clyde Land. Local men not in Illinois college who went to Springfield for examination Thursday were John W. Larson, Wilfred Ayers and Vorce Bassett. Those men who have been notified that they have passed the examination will report at Ft. Sheridan, Tuesday, May 8. Those whose names are pending are expecting instructions to report by May 13.

Examined Locally First. Nearly all of the applicants from this city were first examined by Dr. Carl E. Black or other physicians in his suite in the Ayers National bank building. Some of the examining work was done by Dr. E. L. Crouch, Dr. Walter L. Frank and Dr. Arthur Wood. The examinations here were thorough, each applicant being subjected to tests which occupied nearly two hours. In Springfield the examination was made by Col. Edward M. Lewis, head of the examining board, and the applicants testified that the examination is of the most thorough kind. The government is even more particular about the physical fitness of the men chosen with the prospect of serving as officers than in examination of men to serve in the ranks. Col. Lewis paid some of the Jacksonville men the compliment of saying that he had never found men in better physical condition. In addition to the applicants mentioned above, at the local recruiting office of the government established in the postoffice building Wednesday Fred Bray and Floyd Lashmet made applications for enlistment and were accepted. They were assigned to the coast artillery of the regular army.

Seeking Older Men. The government in the past few days has been making an effort to secure enlistments in the officers' training camps of men ranging from 26 to 44 years of age. While men with military experience are preferred, the government is also desirous of securing men of the age mentioned experienced in business and whose record is such that they are of known executive ability. Alumni of Illinois college of the age mentioned who recently furnished a committee representing the college personal facts about their availability for enlistment in the case of need, have received communications from the war department setting forth the special desire of the government to secure volunteers of the general type mentioned for the officers' training work.

NEW Y. M. C. A. COMMITTEE TO MEET THIS EVENING

Secretary Spaulding of the Alton Y. M. C. A. was in the city Thursday in the interest of the state campaign for army association work. As has been mentioned before the local district comprises the counties of Morgan, Greene and Seely and has been requested to raise an appropriation of \$2,500. The committee for state work met Thursday evening with Mr. Spaulding and called a meeting for tonight at 7:30 o'clock when the following men who have been asked to serve on a special campaign committee will assemble: Rev. M. L. Pontius, chairman; Dr. Edward Rowe, C. A. Johnson, the Rev. F. A. McCarty, W. G. Goebel and J. S. Findley.

GREAT ORCHESTRA COMES SATURDAY

Among the quartet of vocal soloists that are engaged by the Minneapolis Symphony Orchestra, which appears here Saturday at the Grand during the course of its annual tour, is the young contralto, Jean Cooper, who won the \$3,000 scholarship offered by a prominent New York woman in 1913 for "the Most Beautiful American Voice."

The New York World in its issue of October 31st, 1914, said, in speaking of her concert there the night before, "On the program was a contralto, Jean Cooper, whom it would be a pleasure to hear oftener. This singer has an attractive personality and stage presence and sings with style and musical understanding. Her voice is agreeable to listen to, is even in its quality and she uses it with skill."

In a review after one of her concerts in Buffalo, the critic of the "Times" of that city stated: "Perhaps once in a decade a benefit concert brings forth a great surprise in the way of a singer and this happened last night in the person of Jean Cooper."

"One wondered how Mr. Gatti-Gazzara, of the Metropolitan Opera happened to overlook her."

TWO UTILITY EMPLOYEES HAD ACCIDENTS THURSDAY

Howard Spears, employed at the plant of the Railway & Light Co. had his hand caught in some belting Thursday. The injury was attended by the company surgeon but was not serious enough to keep Mr. Spears from returning to his work. A. C. Mansfield of West Lafayette avenue was badly injured about the eyes Thursday as the result of a small explosion in the gas department. After treatment for the injury he was taken to his home. Serious results are not unlikely.

ALL IN READINESS FOR HIGH SCHOOL MEET

Rainy Weather Will Not Interfere With Athletic Events—Declamation Contest at 9:30 O'clock This Forenoon

Rain or shine the Western Illinois High School League meet will be run off today. The question of postponement was considered Thursday and Principal Callihan was in communication with Prof. W. G. Russell of Beardstown, president of the district. The Illinois College cinder track is scarcely affected by water and it was thought best to go ahead with the meet whatever the weather, the hope was expressed that the continued season of rains might show some lessening. In no part of the district was there heavy rain during the night. Mr. Callihan received no cancellations Thursday.

The events will begin at 1 o'clock sharp on Illinois field. The contest in declamation will take place in David Prince theatre this forenoon at 9:30 o'clock. The judges will be Prof. B. W. Cavins, State Normal university, Normal; Miss Irma Kriebel, department of public speaking, Carthage college, Edward Moore, Millikin university, Miss Bernice Wood of the will represent Jacksonville. She will give a cutting from "Seventeen" by Booth Tarkington. The other contestants:

Cigarette (Under Two Flags) Lucille Kirby
Beardstown...One of Bob's Tramps Harriet Buck
Winchester...The Lance Kanana Earl Lashmet
Virginia...Connors
Marion Lyles
Greenview...Declamation of Little Pat Elmer Lundberg
White Hall...As the Moon Rose Maude Carter
Ashland...Mae Gaddis
Tallula...A Pleasant Half Hour on the Beach Emma Piper
Athletic Entries

Nine schools will take part in the track and field meet: Jacksonville, White Hall, Tallula, Beardstown, Winchester, Petersburg, Greenview, Virginia and Ashland. Ninety-nine athletes have been entered. As given out by Coach Hafford Thursday the entries for Jacksonville are:

Homer Reynolds—50, 100 and 200 dashes and running broad jump.
Hull—220 hurdles and 440 run and broad jump.
Tholen—Weights and Javelin.
Ferguson—Pole vault, 220 dash and probably broad jump.
King—50 yard dash, discus and shot put.
Garvin—mile and half mile runs.
Firke—Javelin and probably 220 dash.
Smith—Mile and 440 yard run.
Green—half and probably 220 dash.
Mohn—Half or 440 run.

The Call to Service

The people of the United States are called to SERVICE. Courageous and patriotic young men will cheerfully respond to their country's call, but.

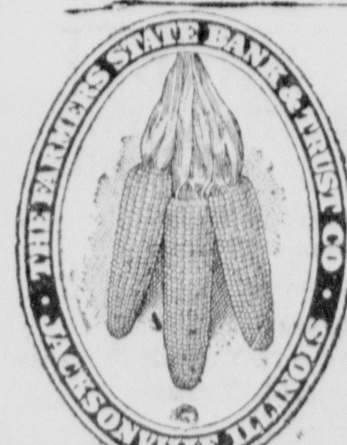

This is not simply a young man's war. The future of America awaits its result and everyone, man or woman, young or old, must do his part. To those at home is the duty of keeping our country going. The young men who follow the Stars and Stripes look to us at home to keep agricultural and commercial America ready for any emergency and ready for their return.

We must each of us put more into each day's work to help replace the work of the men called to the colors—we must deny ourselves so as to add to and maintain the Nation's credits and resources and must organize and co-operate our resources so that massed they will assure America's future.

The bank mobilizes capital—it recruits money—and "Money is the Sinews of War." It is the duty of the bank to accumulate capital and to put that accumulated capital to the common service.

THE FARMERS STATE BANK AND TRUST COMPANY

Is Prepared for Its Duty

If you will lay aside regularly a portion of your earnings as your share of your nation's and your own future resources and will deposit it in our Savings Department, we will mass our deposits and will lend them to our farmers to help them make two blades of grass grow where one grew before and to our industries and tradesmen to maintain and upbuild our commerce and industries and thereby help sustain and prosper our country and our people.

A Liberal Rate of Interest paid on Savings Deposits.

APPROPRIATES LARGE SUM FOR RESEARCH

Rockefeller Foundation Sets Aside \$475,000

Money Will be Used for Medical Research and Humanitarian Aid as the Beginning of Its Work in the War With Germany.

New York, May 3.—The Rockefeller foundation announced tonight it had appropriated \$475,000 to be spent in the United States for medical research and humanitarian aid as the beginning of its work in the war with Germany.

An additional \$400,000 will go to continue relief activities now being carried on abroad.

To aid the work of the Young Men's Christian association in the training camps to be established for the army and navy, \$200,000 has been appropriated by the foundation.

An appropriation of \$200,000 also been made to the Rockefeller Institute for medical research for the Carrel Hospital to be established during the next few months in connection with it. This model hospital of 100 beds under the direction of Dr. Alexis Carrel is to be used to teach the new methods of surgical treatment for infected wounds, worked out by Dr. Carrel and Dr. Dakin in France.

The Rockefeller Institute receives a further appropriation of \$60,000 for instructing military and other surgeons in new methods of diagnosis for the preparation of serums for use in army camps and for the purpose of finding improved means of treating peritonitis and shock.

Funds also are provided for a study abroad of mental disease among soldiers and the kinds of provision needed for their care at the front and in base hospitals.

To provide buildings for a new psychiatric hospital to be erected on the grounds of the United States marine hospital in New York the foundation had appropriated \$15,000.

During the month of April the foundation made gifts and pledges for European war relief amounting to \$450,000. This brings the total appropriations for European relief as previously announced to \$4,181,552.

ZAIMIS WILL FORM NEW GREEK CABINET

LONDON, May 3.—Alexander Zaimis has accepted the task of forming a new Greek cabinet says a Reuters despatch from Athens.

Alexander Zaimis was formerly premier and foreign minister of Greece but retired from office in September, 1916. King Constantine of Greece recently made an offer to the entente allies to form a cabinet agreeable to them if guarantees were given to him that the French army would not invade Greece and that he would not be dethroned.

OBSERVE SHAKESPEARE DAY

London, May 3.—Shakespeare Day, which was observed Thursday, was another "America Day" in London.

Walter Hines Page, the American ambassador was the main figure in the carnival celebration at King's College, which was attended by representatives of all the leading literary, educational and cultural societies and organizations in the British Isles.

GERMANS RETREATING ON ALL MILITARY FRONTS

Earl Curzon, Member of British War Council, Made Statement in Addressing Primrose League in London

London, May 3.—Addressing the Primrose League in London today, Earl Curzon of Kedleston, member of the war council, said there was no military front in the world-wide war where at present the enemy was not a retreating force.

"We are learning daily from the western front," said Earl Curzon "of increasing desertions and surrenders by the enemy and of the breaking down in discipline on the German side."

The speaker said he recognized the submarine menace to be formidable but that in his calculation the cabinet had made allowance for that which had already taken place. He did not think personally that the submarines would diminish shipping to such an extent as to affect the ultimate issue of the war.

Referring to the entry into the war of the United States, Earl Curzon declared the Americans already were putting their full weight into the war and realized the gravity of the situation they in common with the allies now were facing.

"It will not be very long before their armed forces are seen upon the continent," said Earl Curzon. "We shall find, therefore, that we have secured in America a whole-hearted, sincere and powerful ally who entered the war for a victory to mankind and who will not desert until they have secured not an inconclusive or illusory peace, but a real and lasting peace which, when established, shall be fortified and strengthened by guarantees, which, will, if possible, secure its continuance in the near future."

WARTIME FOOD BILL PASSES FIRST TEST

SPRINGFIELD, Ill., May 3.—The first wartime food control bill introduced in the Illinois legislature passed successfully thru its first test tonight when the house efficiency and economy committee reported for passage the measure proposing creation of a state commission of markets, food and farm products.

The bill, drawn by Representatives Boyer and Lyle, would if enacted, give the commission wide powers of investigation and control over food supplies and their distribution.

DEAN SHAY FATALITY SHOOTING NEGRO WAITER

Indianapolis, Ind., May 3.—Dean Shay of Kansas City, manager of the Milwaukee American Association baseball club shot and fatally wounded Clarence Ewell, a negro waiter in a hotel here tonight, in an argument over a sugar bowl. The colored man was taken to a hospital where he died a short time later. Shay was arrested and the police are seeking a woman who is said to have been with Shay at the time of the shooting.

BILL MAY REACH HOUSE TOMORROW

Washington, May 3.—Work on the war revenue bill progressed in the house ways and means committee today to such a point that the measure probably will be brought into the house not later than Saturday with a special rule to expedite its passage.

HISTORY OF MEDICINE

The Morgan County Medical Society Will Be Fifty Years Old In May.

Anyone who has information about any of the early doctors of this county, or of any Medical Meetings or Societies prior to 1866, will confer a favor by sending it to Dr. Walter Frank, secretary of the Morgan County Medical Society, 200 Ayers Bank Building, and it will be edited for this column.

MEMBERSHIP BY YEAR.

Below we give a list of the names of the members of the Morgan County Medical Society by years. The address of those living outside of Jacksonville is given. Anyone noticing names omitted will confer a favor by notifying the Secretary. Today's list covers the years 1903 to 1911.

1903.
Dr. Colbert.
Dr. McNery.
Dr. Kennibrew.
A. M. King.
H. A. Potts.
Grace Dewey.

1904.
H. P. Duncan.
F. A. Stubblefield.
T. O. Hardisty.
A. H. Dollac.

1905.
A. J. Ogram.
R. L. Estes, Mercedosa.
F. A. Norris.

1906.
H. C. Woltman.
Walter Purviance, Literberry.
R. R. Jones.
Watson Gallely.
Percy Hoffman.

1907.
R. Winsor.
E. F. Leonard.
C. W. Fortune.
E. W. Gardner, Literberry.
G. R. Bradley.
Adam Wenger, Concord.

1908.
Lucius Smith, Chapin.
Paul Allyn, Waverly.
A. E. Obermeyer, Arcadia.
D. U. Harris, Prentice.
W. H. Allyn.
G. A. Webster.
Frank P. Boyde.
Geo. H. Stacy.

1909.
R. Getters.
Walter L. Treadway.

1910.
A. R. Gregory.
Wm. H. Weirich.

1911.
J. U. Day.
H. Clamplitt.
J. M. Elder, Franklin.
L. W. Fulton, Alexander.

1912.
F. E. Munch.
Annie McFarland Sharpe.
Dr. Anderson.
Dr. Hall.
Dr. Meyers.

HOUSE MAY STRIKE OUT CENSORSHIP SECTION

Sentiment Against Provision of Espionage Bill Strong

Clark, Mann, Kahn, McCormick and a Dozen Others Oppose any Proposal to Muzzle the Press—One Insists England be Asked to Raise Press Censorship

Washington, May 3.—Sentiment against the censorship provision of the espionage bill became so strong in the house today that its leading opponents confidently declared tonight that the section would be stricken out before final passage of the measure. A vote may be reached tomorrow.

Speaker Clark, Republican Leader Mann, Representative ahn of California, Representative McCormick of Illinois and a dozen other representatives today attacked the section. They declared unequivocally that they were opposed to any proposal to muzzle the press particularly at the outset of America's entrance into the war. Representative Wood of Indiana even insisted that England as an ally be asked to raise its press censorship.

Representative Webb in charge of the bill amended the language of the section during the day, but its opponents insisted that substantially no change had been made. As amended it now reads:

Section as Amended
"During a war in which the United States is engaged or during a national emergency threatening war, the president is authorized from time to time to designate by proclamation the character of information concerning the national defense which in his opinion would be useful to the enemy and thereupon it shall be unlawful for any person without proper authority to publish or communicate such information."

"Whoever violates this section shall be punished by a fine of not more than \$10,000 or imprisonment not more than 10 years or both."

The provision in the bill authorizing the president to declare export embargoes caused broad discussion in the senate of food and related questions. Little progress was made on the measure in all day debate. A vote on the embargo proposal probably will not be reached before Saturday. There will be another vote on the press censorship section before the bill is finally disposed of next week.

U. S. PLANS TO AID RUSSIA AND FRANCE

WASHINGTON, May 3.—Immediate assistance to Russia and France in strengthening their railroad systems is planned by the American government. The first step will be the dispatch of a commission of four railroad experts, including John F. Stevens, a consulting engineer who was chief engineer of the Panama canal commission before General Goethals.

The plans for aiding France in solving her railroad problems which have been drawn up in detail by the council of national defense will be made public within a few days.

TO MAKE MORE ARRESTS IN CONSPIRACY CASE

DENVER, Colo., May 3.—Between thirty-five and forty more arrests are to be made within two weeks in the alleged interstate stolen gold conspiracy uncovered last night by arrests of five men in Cheyenne, Wyo., and one each in Cripple Creek, Colo., San Francisco and Denver, according to an official of the secret service here today. The conspirators the officers said have been getting away with \$300,000 in gold ore, mainly from mines in the Cripple Creek district and the thefts have been going on for over three years. The interest of the government in the case is explained as due to the fact that the affair put it in the position of receiving stolen goods.

TO VOTE ON BOXING BILL

SPRINGFIELD, Ill., May 3.—The boxing bill agreed upon by the house license and miscellany committee will be voted on in the house next week under arrangements made today.

TEN INJURED IN TRAIN COLLISION

PEORIA, Ill., May 3.—Ten passengers were injured tonight in a train collision on the Chicago, Burlington & Quincy railway at Yates City.

The injured are:
Mrs. Hattie Gustafson, Peoria; injured about back.
Mrs. Cloyd Steenburg, Farmington; back injured.
Mrs. James Robb, Farmington; head and shoulders cut.
Mrs. Charles Raffle, Farmington; head cut.

Charles Goodwin, Atkinson, Ill.; arm cut.
Mrs. Jesse Stellebeam, Ellisville, Ill.; arm crushed.
C. L. Nelson, Rock Island, Ill.; bruised and cut.

Mrs. Mattie Brown, Cambridge, Ill.; head cut.
Mrs. Krisher, Elmwood, Ill.; injured by shock.

Mrs. J. Settlefield, Bradford, Ill.; face cut, wrist injured.

The accident occurred at the switch connecting the Buda and Rushville branch and the Peoria and Galesburg branch. The brakeman of the rushville is alleged to have thrown the switch before the Peoria train had passed. The rear coach of the Peoria train side-swiped the rear coach of the Rushville train with sufficient force to turn it on its side.

MAKES PLEA FOR POPULAR SUPPORT IN CAMPAIGN

WASHINGTON, May 3.—In announcing tonight that the department of labor agencies thruout the country had registered 15,000 skilled shipbuilders for work on the great wood merchant fleet, Secretary Wilson said this achievement was "only a minor step in the nation-wide mobilization of labor" proposed by the administration as a war measure. He made a plea for popular support and co-operation and for a large congressional appropriation for mobilization work.

DEDICATE MOOSE HOME AT DECATUR

DECATUR, Ill., May 3.—Delegations from all parts of the state are present for the dedication of the new \$50,000 Moose Home at Decatur today. Among the delegates represented are Chicago, Springfield, Bloomington, Champaign, Mattoon, Morrisonville, Pana, Ottawa, Joliet, Aurora, Elgin, Monticello, Rockford, Clinton and other cities.

The exercises were opened with a flag raising at which Admiral C. B. T. Moore, retired, spoke.

SOME COMING EVENTS

May 4—Western Illinois High School League Meet, I. C. Campus.
May 8—Dandelion Fete, Illinois College Campus.
May 11—Illinois College Invitation Meet, J. H. S. Senior play.
May 14—May Day Fete, Illinois Woman's college.
May 17—Annual concert, I. S. B.
May 21—May breakfast and track day, I. W. C.
May 22—Commencement, Illinois School for the Blind.
May 24—Madrigal Club concert, I. W. C.
May 25—State Intercollegiate meet, Peoria.
May 27—J. H. S. Baccalaureate.
May 28—J. H. S. Dramatic club play.
June 1—Academy Commencement, I. W. C.
June 3—Woman's College Baccalaureate.
June 4—I. W. C. Alumnae day.
June 5—I. W. C. Commencement.
June 10—Illinois College Baccalaureate.
June 11—Whipple commencement. Osage Orange picnic. Senior promenade.
June 11—Illinois College class day. President's reception.
June 13—College Commencement. I. C. Alumni luncheon. Class reunions.

HERBERT C. HOOVER RETURNS FROM EUROPE

Asserts U-Boat Menace Has Made Food Situation in Belgium and Northern France One of Extreme Gravity.

New York, May 3.—The German U-Boat menace has made the food situation in Belgium and Northern France one of extreme gravity, the mortality among adults in the industrial districts having multiplied by three during March and April, according to Herbert C. Hoover, who arrived here today from Europe on an American ship. Mr. Hoover said he would go immediately to Washington to take charge of the government's food control program.

"Like every good American, I have come over to do my share," Mr. Hoover said. "My new duty is too big a proposition to discuss at this time."

BURIED BODY OF LIEUT. THOMAS AT SEA

LONDON, May 3.—Captain S. S. Harris and eight other survivors of the American tank ship Vacuum, sunk by a German submarine arrived today at — suffering severely from exhaustion and exposure. Lieutenant Thomas, U. S. N., who was in command of the gun crew on the Vacuum, died of exposure on Sunday morning in the captain's boat. His body was buried at sea.

The captain's boat was overturned three times and the men had a terrible battle for life. The survivors will be unable to travel before Saturday.

COLLEGE RECEIVES BULK OF ESTATE.

Chicago, May 3.—Wheaton College at Wheaton, Ill., and the American board of commissioners for foreign missions receive almost the entire estate of Charles H. Case, valued at \$650,000. The will was probated today.

PARKS WILL BE OPEN

Washington, May 3.—All national parks will be open to visitors this year as usual, Secretary Lane announced today. His statement was prompted by reports that the parks would be closed.

TEAMSTERS GO ON STRIKE

Sioux City, Ia., May 3.—One hundred and twenty-five teamsters struck here today for higher wages demanding \$15 to \$18 a week.

PHILADELPHIA

Miss Nellie Farmer, of Weldon, Iowa, spent Sunday with her grandmother, Mrs. Ruth Harding. Miss Farmer and father have been called to Ashland, on account of the illness of the latter's father.

Frank Greenwood, Jr., of St. Louis returned home Monday after a few days' visit with his parents, Frank Greenwood and wife.

Mrs. Carroll Knight and Miss Ada Knight of Virginia spent Friday afternoon with the former's sister, Mrs. Leo Devlin.

B. O. Springer and wife were Sunday guests of Charles Pfannmer and family of Virginia.

L. M. Shackel, wife and son, Marshall of Jacksonville, were Sunday guests of H. B. Pattillo and wife.

Frank Black and wife and Frank Reid and wife were shopping in Springfield Saturday.

Mrs. Ellis Shafer and daughter, Eva and Miss Pauline McIn were shopping in Virginia Saturday.

Ed Swartwood and wife were Springfield visitors Saturday.

Ed Bailey of Ashland was here Monday.

Miss Lorena Greenwood spent Tuesday evening with friends and relatives in Virginia.

Miss Bernice Pattillo of near Garner Chapel spent Monday afternoon with Mrs. H. B. Pattillo.

Mrs. Guy McLaughlin and children of Walnut Grove neighborhood spent Monday with her mother, Mrs. Otis Mapes.

Miss Eva Thomas spent a few days the past week with her grandparents Robert McDonald and family near Garner Chapel.

B. O. Springer is the owner of a new Ford roadster.

The road commissioners of this district namely J. T. Newell, Louis Carls and Thomas Clemmons were in business callers here Tuesday afternoon.

CHILEAN MINISTER DEMANDS PASSPORTS

LONDON, May 3.—The Chilean minister to Germany has demanded his passports, according to a Central News despatch from Amsterdam. The despatch says:

"A message received from Berlin says the Chilean minister to Germany has demanded his passports and announced a rupture of relations between Chile and Germany."

"The news caused the greatest annoyance in political circles, where efforts were being made to avoid a break with both Chile and Argentina, in order to preserve some friendship in South America."

"Instructions have been given for Chilean citizens to be treated as enemy citizens. The despatch adds that it is feared that it will be impossible in the present circumstances for the Chilean legation to leave Germany."

SPRINGFIELD SALOONS CLOSE

Springfield, Ill., May 3.—Joy, song and sorrow went hand in hand as the death knell of Springfield's two hundred and fifteen saloons was sounded at midnight tonight. In East Jefferson street an entire block was one large howling, shouting mob that ushered the saloons out of existence. A large force of policemen and deputy sheriffs were on

hand but no arrests were reported. Springfield will stay "dry" for two years.

GENERAL MCINTYRE DIRECTS CENSORSHIP

Washington, May 3.—Direction of the censorship over telegraph lines between the United States and Mexico has been placed in the hands of Brigadier General McIntyre, head of the insular bureau of the war department, who has chosen a group of civilian telegraphers for the actual work.

AGED ODD FELLOW DIES

Burlington, Ia., May 3.—Word was received in this city of the death of John Lemberger in Crafton, Cal., at the age of 96 years. He was a member of the Independent Order of Odd Fellows, 69 years, the oldest Odd Fellow in the country in years and membership.

Telegram from Secretary McAdoo to Clearing House Expresses Appreciation for Tender of Services—Suggests Appointment of Local Committees.

Recently the Jacksonville Clearing House Association thru its officers assured W. G. McAdoo, secretary of the treasury, that the local banks will be pleased to aid the government in every way possible in placing of government bonds made necessary by the loan of \$2,000,000,000 to the allies. Yesterday a telegram addressed to the clearing house was received from Mr. McAdoo and was delivered to E. E. Crabtree. This telegram was the language as follows:

Washington, D. C., May 3, 1917. Clearing House Association, Jacksonville, Ill.

Will you kindly convey to the members of the clearing house my appreciation of the tender of services I have received from them and beg them to co-operate heartily with the federal reserve bank of your district in securing subscriptions to the two billion dollar, three and one half percent "Liberty Loan." I think appointment of local committees to assist the federal reserve bank and its work will be extremely helpful. The amount of the initial loan has been determined by the needs of the government and not arbitrarily. It is impossible to meet the tremendous financial requirements of our own government and the allies in carrying on the war with a less initial subscription than two billion dollars. The enthusiastic and patriotic cooperation of the banks and bankers of the country will guarantee the success of the undertaking.

W. G. McAdoo,
Secy. of the Treasury.

SUNDAY SCHOOL OFFICERS

Officers of State Street Church Sunday school met Thursday evening at the home of William Lucas, Jr., on Edgmon street. Sessions are held monthly for the purpose of discussion of Sunday school plans. Last night there was special consideration of Children's day and details for exercises were worked out. Various matters relative to the Sunday school were discussed and the evening was profitably spent.

VISITORS IN CITY

Mrs. Eva Considine of Thompson, Mo., is in the city the guest of Mrs. E. O. Mayer at her home on West North Street. Mrs. Anna Steinmetz is also being entertained at the Mayer home. Mrs. Steinmetz has been living in Los Angeles and is on her way to Cincinnati to reside. She will spend part of the summer with her son Harry Steinmetz, and wife in Chicago. Mr. Steinmetz, who is a missionary serving under direction of the Baptist church, has recently returned from the Philippines.

Bert Fitzsimmons of Woodson made a business trip to the city yesterday.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys, and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 205 Olive St., St. Louis, Mo. Sold by druggists.—(Adv.)

ADDED TO LIBRARY

"Within the German Empire" Gives Reasons for Wonderful Strength Displayed by Teutonic People—Seven Useful Practical Books in List

The public library will place in circulation Saturday morning at 9 o'clock a remarkably good collection of books on the war. A part deal with the daily life and experience of those in the war zones. Others treat the problems incident to the war.

The most noteworthy volume in the list, perhaps, is "Inside the German Empire" by Herbert Bayard Swope. Mr. Swope is a newspaper man of long experience who made a tour of Germany in the fall of 1916 and hence has "the last word" to offer on real German conditions "economic, political, spiritual and military." In the volume are considered with interesting detail the factors which have made possible Germany's prolonged resistance. Other books:

Hall—Kitcheners Mob. "Vivid pictures of the way in which the raw recruits enlisted for Kitcheners army were shipped into fighting form and of their experiences on the march and in the trenches of France. The author, an American youth, caught the contagion of enlistment in London, and his weeks of intimacy with Tommy, engendered a great enthusiasm for him as a 'fighting man.' One of the most readable books on the war we have had."—Wisconsin List.

Hankey—Student in Arms. Twenty short serious essays written by an Englishman, a member of "Kitcheners mob." "They deal not so much with actual incidents in the war, as with the soldiers' attitude toward life at the front, toward religion, the church, their officers and each other. The author was killed in action in October, 1915."—A. L. A. Bkl. Gift to the Library.

Russell—Why Men Fight. Examines the elements in human nature which impel to warfare and seeks the influences which must be developed to avoid future conflicts, criticizing many of our present institutions.

Vose—The Spell of Flanders. Many good illustrations, some colored.

Warwick—A Woman and the War. Twenty-seven essays in which the English feminist states very frankly the moderately her views of the war, and in which she preaches democracy, social reform, and raising the standard of national intelligence. The not an extreme pacifist, she nevertheless expects the coming of a day, when the influence of women will put an end to all war."—A. L. A. Bkl.

Winslow—With the French Flying Corps. Account of a young American's seven months training in the French aviation corps, his adventures as a pilot and his experiences at the German attack on Verdun. Illustrated by photographs.

Cheradame—Pangerman Plot Unmasked; Berlin's Formidable Peace Trap of the Drawn War. "To review the book adequately would be to quote it in its entirety. Every page is of significance. It is by all means the most pregnant volume on the deeper issues of the war that has come under our eyes."—Boston Transcript. The book is a gift to the Library.

Practical Books

Hall—Handicrafts for the Handicapped. A book of vital and practical helpfulness to all interested in physically or mentally handicapped persons, as well as to the afflicted themselves. Basketry, weaving, bookbinding and other crafts are well presented.

Hayward—Automobile Ignition Starting, Lighting. Published by the American Technical Society.

Cooke—The Baby. The Library also has many interesting new pamphlets on child welfare.

Klickmann—Beautiful Crochet on Household Linen.

McKeever—Farm Boys and Girls. Schwab—Succeeding With What You Have. Brief, inspiring, every sketches, giving good advice to young men about to enter business.

Rose—Feeding the Family.

Poetry

Durand—A Handbook to the Poetry of Rudyard Kipling.

Gibson—Livelihood. "Those who have enjoyed Mr. Gibson's other books will not find their expectations disappointed in Livelihood with its friendly working people, its stories of their hardships, their fortitude and humble satisfactions."

Sarajini Nayadu—Golden Threshold. "From groves of spice o'er fields of rice, athwart the lotus stream, I bring for you, aglant with dew a lovely little dream."—From Cradle Song.

Rent Fiction

Abbott—Stingy Receiver.
Howlett—Thorngills.

Norton—Unknown Mr. Kent.
Rinehart—Kings, Queens and Towns.

Smith—Other People's Business.

C. P. & ST. L. MEN WITHDRAW DEMAND FOR WAGE INCREASE

Springfield, May 3.—Realizing that a labor controversy would be any thing but patriotic while the country is in a state of war, conductors and brakemen of the Chicago, Peoria & St. Louis Railroad today withdrew their request for a wage increase.

"The men settled for their own accord," said W. C. Hurst, vice president and general manager of the road, in announcing today that the demand for a five per cent increase has been called off.

Engineers and firemen of the C. P. & St. L. who have a request for a five per cent wage increase pending will meet officials of the road Monday afternoon.

In the opinion of Mr. Hurst there will be no difficulty in reaching an agreement with the engineers. The terms of their application for more wages are almost identical to those made by the conductors and brakemen.

REV TOWLE DELIVERED
FINE ADDRESS ON HOME

Union Parent-Teachers Association Drew Large Audience to David Prince School.

A fine audience filled the great auditorium at the David Prince building last evening. Mrs. A. B. Williamson, president of the union Parent-Teachers Association, presided and announced first the fairy godmother play so well presented at the Jefferson school building Monday afternoon. The children deserve especial commendation for speaking so distinctly and loud that they could be heard all over the room.

The high school orchestra favored the audience with some excellent music and the pupils of the various sixth grades sang some chorus songs most effectively.

The principal number of the evening was the lecture by Rev. E. K. Towle on "The Defense of the Home." It was a masterly effort and filled with sound advice which should be heeded by all parents. Only a very few thoughts are presented:

Importance of the Home.

"The home should be the dearest, sweetest, most attractive spot in all the world. The home is the problem of the country. Let the home be what it should be and the country is safe; without proper homes the public school, the church and Sunday school, the law and the college work in vain. In nearly all cases the downfall of a person may be traced to something wrong at home. Rarely, if ever, will the child properly reared go astray. No amount of wealth, luxury or anything else can atone for a home lacking love, discipline and dutiful children.

"The way to get rid of thieves, drunkards, gamblers and all evil minded persons is to stop raising them. Beware of gamblers. Every devotee of a pool room is an incipient gambler and I am told that even in this high school some boys jingle in their pockets money won in the pool room. The result of this is easy to tell.

Too Much Expected from Schools. "If you want to know about a woman's piety ask her servant girl. We expect too much of the schools and other instrumentalities. We cannot shift our responsibility to them. A dangerous sign of the times is the tendency not to respect parents and of parents to neglect the home. Of the 198,000 men in prisons the great majority went first when between 21 and 25. An old lady who had been left a poor widow with three boys pointed with pride to their two story, elegant homes surrounded with all manner of comforts and when asked how she raised them, replied with prayer and hickory and she raised them 'powerful frequent.'"

"Scott, Byron, Napoleon, Bacon, Washington, Nero, Patrick Henry—all inherited from their mothers the traits so conspicuous in their lives. Be true to your children; set them right examples; teach them to obey you, the law and the gospel; begin with them when very young and you will rear a family to honor you and the country."

ON SHAVING PIG TAILS.

(St. Louis Post-Dispatch.)

Is shaving a pig's tail skilled or ordinary labor? That is the question which the Illinois Supreme Court is facing. Judge Burton of the Springfield circuit court, has faced it and has decided that shaving a pig's tail is ordinary labor. Joseph Londrigan, of that city, who is a pig-tail shaver by profession, is strongly of the opinion that it is skilled labor. So he is going to take it up to the Supreme Court.

On the ultimate finding depends Londrigan's job. Until lately he was an official pig-tail shaver at the Live Stock Commission's Laboratory in Springfield. The shaving was preliminary to the extraction by mechanical process of blood from the said pig-tails to be used in the making of hog serum. Well, he was discharged. He took the position that, being a skilled laborer, he came under civil service rules and could not be discharged. He filed suit and the case came up before Judge Burton, who ruled that shaving pig-tails was not skilled labor and that therefore Londrigan could be discharged.

It is very evident that Judge Burton never tried to shave a pig's tail. If anything takes skill it is shaving pigs' tails. Pigs are particular. They are opposed to having their tails shaved. Londrigan can win his case in the Supreme Court if he goes about it right. The way to go about it is to get the Supreme Judges, singly or severally, to try to shave the tail of a pig. It will be hard on the pig, but equity will triumph.

SEND AURORA MAN
TO DETENTION CAMP

CHICAGO, May 3.—Johann Orthman, a laborer, was arrested today at his home in Aurora by agents of the department of justice on orders from the United States attorney general at Washington. He is charged with being dangerous to public peace and safety and was sent to a detention camp until after the war.

Information was given the authorities that Orthman had openly denounced President Wilson and the United States for engaging in the war. He also is charged with having stabbed a recruiting officer in Aurora a few days ago and has written several defamatory letters to federal officials.

J. J. Reeve and E. H. Grey, superintendent of the Jacksonville Railway & Light Co., made a business trip to Peoria yesterday.

ROBT. DEATON'S ABSENCE IS CAUSE FOR ALARM

Left Douglas Store Where He Has Been Employed Wednesday Afternoon—No Motive Found for His Going.

Up to a late hour last night the mysterious disappearance of Robert Deaton had not been explained. The young man has for the past two years been a clerk in the store of George T. Douglas and was at work there until some time Wednesday. The last time he was seen was about noon Wednesday when he took Mr. Douglas' horse and buggy to the livery stable. Mr. Deaton has a wife and one child, the family home being at 754 West Lafayette avenue.

The man has been a valued employee at the store and was accounted especially faithful and trustworthy. His regular duties at the store were discharged as usual Wednesday and there was nothing in his conduct and conversation out of the ordinary. His account at the store is in proper shape and his employer and relatives are altogether unable to account for his sudden disappearance. His home relations had been pleasant and naturally his wife is greatly distressed by the mystery. Two brothers of Mr. Deaton are well known Morgan county farmers and they are unable to offer any explanation of the happening.

Mr. Deaton, who was forty years of age, is about five feet six inches in height, of slender build weighing about 130 lbs. He has dark hair, does not wear a beard or moustache, and was clothed in a dark working suit when last seen in Jacksonville. Authorities here and else

where have been asked to co-operate in the endeavor to locate the missing man.

WAR WILL FURNISH BROTHERHOOD TOPIC

Congregationalists Will Listen to Representatives in Professions, Business and Trades.

At the regular monthly meeting of the brotherhood of the Congregational church to be held this evening the program will be timely and of exceptional interest. The supper will be served members and invited guests at 6:30 o'clock and then in accordance with arrangements made by the program committee, seven members engaged in business or professional life will answer the question, "What my business should do in the war." The speakers will be for the clergy, Dr. R. O. Post; for merchants, B. W. Smith; for physicians, Dr. E. L. Crouch; for lawyers, J. P. Lippincott; for business men, W. D. Wood; for the trades, Marcus L. Robinson; for government officials, Miller Weir.

After these addresses all members are expected to join in discussion. As this will be the annual meeting for the selection of officers all members are especially urged to be present.

Circuit Court Suit Filed. One suit was added to the docket of the circuit court Tuesday for hearing at the May term. This was a partition suit brought by Mary E. Wall against Jennie Taylor et al., by E. Etter as attorney. The property at interest is in Waverly.

COUNTRY NEEDS MEN IN TRAINING CAMPS

Application Blanks are in Hands of Mayor H. J. Rodgers—Government Will Pay Expenses and Salary of Men While in Camp.

The government is now using the best effort to interest young men in the military training camps for officers which have been established in various parts of the U. S. Publicity matter with reference to the camps is being received by Mayor H. J. Rodgers, who has been named as the recruiting officer for the reserve corps in this city. Mayor Rodgers has the necessary application blanks and will be pleased to furnish any desired information to young men who are considering enlisting. The publicity matter is being furnished by the central department of the military training camps association of the U. S. This association is composed of patriotic individuals who are giving largely of their time and money and receiving co-operation from patriotic co-workers in every branch of industry. By this means in the present instance it is possible to secure quicker results than if the government direct were doing all of the work. In a bulletin issued to all divisions of the association the following instructions to examining boards are given:

Examination of Applicants. "Hereafter you will have all candidates who apply to you make out applications and you will conduct examinations of such applicants without referring their cases to these headquarters. The full names, addresses and branch of all accepted candidates so examined will be transmitted daily by mail to these headquarters. Strike out on all approval cards under second indorsement words 'And has authorized him to report with his duplicate copy to the camp above indicated.' Invite attention of candidates to directions on back of card requiring Camp Commander to select and notify such accepted candidates as are authorized to attend. Accepted applicants may report not earlier than May 8th, not later than May 14th. Give widespread publicity to this announcement."

It will facilitate the work if persons expecting to attend the training camp will get in touch with the local examining board instead of sending their application to the department commander in Chicago. One point of appeal for the training of officers from each city is that in this city there will be no likelihood of the troops from a given city serving under an officer from that city or locality. Conscription is now a certainty but whether or not the man who commands the soldiers who go from Jacksonville or from this locality depends upon the interest which people here show in this matter of entering the training camps.

Expenses and Salary Paid. The general expenses of those who attend these training camps are paid—that is, to the extent of 50c per day per man for sustenance. This under the basis of army rations sufficient. The railroad expense from the home station to the training camp is also paid by the government and there is no expense to the men in training for uniform. When railroad fare is paid or uniform purchased, the purchaser should retain the receipt in order to facilitate adjustment with the government.

No final date for receiving applications has been announced but the call is urgent and if you are intending to enter a training camp now, the time to make the application. The bulletin referred to also contains the following paragraphs:

"We are advised by member Military Affairs Committee, House, Representatives Army Appropriation Bill would provide hundred dollars a month for Officers' Training Camp students and full pay according to rank for all commissioned Officers Reserve Corps and those recommended for Commissions."

ELLIOTT STATE BANK

Savings Deposits made during the first ten days of MAY will bear interest from the FIRST of the month.

MOTHER OF J. H. SIKES IS DEAD

Word has been received by J. H. Sikes, grand secretary of the Odd Fellows, that his aged mother, Mrs. Caroline Sikes of Bloomington, died Wednesday morning.

Mrs. Caroline Sikes was the daughter of Mr. and Mrs. William Warnock, who came to Illinois from Ohio, seventy years ago.

Mrs. Sikes formerly resided in Mason City, but removed to Bloomington in 1882 for the purpose of educating her children and has resided in that city until the time of her death.

She leaves to mourn her death two sons and one daughter; J. H. Sikes residing in Springfield; Lincoln V. Sikes, residing in Grays Lake, Ill.; and Orilla A. Sikes, living with her mother in Bloomington. She also leaves five grandchildren, two of whom, Dr. George F. Cook, and A. Llewellyn Cook reside in the state of Washington.

The funeral services were held in Mason City, Thursday afternoon and interment in the family lot.

A WONDERFUL COLLECTION OF WEAPONS.

Dr. R. R. Buckthorpe has loaned Johnson, Hackett & Guthrie a wonderful collection of warlike goods which the gentlemen have displayed in a front window. The list embraces a number of old time guns, muskets and the like dating many years back. There are also a number of old time swords, a machete, all sorts of daggers, bayonets, holsters, camp frying pan, cartridges, canteens, sabers, spurs, old crossbow gun, sword cane, several loading outfits including bullet molds and the like; about fifty revolvers of almost all conceivable styles and sorts, several pistols, soldier's hatchet, camp equipment and a vast collection of several hundred articles.

BONDS TO BETTER FIRE DEPARTMENT PROPOSED

Special Election Soon to be Authorized by City Council—\$20,000 Needed for Motorized Equipment.

Commissioner J. Edgar Martin stated yesterday that he had asked City Attorney Reeve to draw an ordinance calling for an election on the question of issuing bonds for the purchase of additional fire equipment. It is the proposal of Mr. Martin made to other members of the council that the people be asked to authorize a bond issue of \$20,000 to motorize the department. After a thorough study of the situation and investigation in various other cities, Mr. Martin believes that the equipment needed for the Jacksonville department is a motorized engine or "pumper" of the large type, and two combination chemical and hose wagons equipped with "junior" pumps, also motorized. With this equipment purchased one of the steamers now in use would be disposed of and the other kept for reserve purposes.

New Equipment Would Save Costs. Mr. Martin will urge a change both in the name of economy and efficiency. The department now requires six horses and the expense for feed and shoeing is very heavy. Then there is a certain annual loss to be charged off as the horses grow older. With a motorized department it would be possible to do away with these horses for the motor driven equipment can be taken over any kind of roads where four horses could furnish the motive power. With motor driven equipment it would be possible to arrive much more speedily at the scene of a fire and it is often that the first few minutes after the discovery of flames count the most. The changes proposed would settle the question of insurance rates in Jacksonville as it is equipment of this kind that has the approval of the insurance underwriters' association.

The proposed \$20,000 bond issue would provide money for the purchase of the equipment and allow from \$1500 to \$2,000 for the purchase of new hose. Mr. Martin's position is that a motorized fire department will provide much better protection for the property interests of the people, that it will hold down insurance rates, and furthermore, effect a saving of about \$2,000 a year in the running expenses of the department. The date of the election has not yet been agreed upon but it is likely to be some time in the month of June.

MONUMENT IN PARK FAVORED BY D. A. R.

Endorsement of Proposed Memorial Voted at Annual Business Meeting Thursday—Officers Elected by Chapter.

The Rev. James Caldwell chapter, Daughters of the American Revolution, held the annual business meeting Thursday afternoon at the home of the regent, Mrs. Carl E. Black. Reports of officers were given and the annual election was held.

The chapter voted to endorse the location of the soldiers' monument in Central park.

The annual business meeting of the chapter has hitherto been held the first week in June. The press of commencement activities has interfered somewhat and a date early in May was thought more desirable.

The regent of the D. A. R. serves a two year term as custom dictates a re-election. The treasurer and custodian are re-elected from year to year.

The new officers:
Regent—Miss Ellie John Trabue.
Vice regent—Miss S. Maria Fairbank.

Recording secretary—Mrs. Herbert Capps.
Corresponding secretary—Miss Mary Wade.
Registrar—Mrs. E. P. Cleary.
Treasurer—Mrs. Lillian Woods King.
Historian—Mrs. R. S. Nelson.
Chaplain—Mrs. Mary Dunlap.
Custodian—Miss Trabue.

ALEXANDER
S. D. Boerup of Naples is visiting friends and relatives here.

Mr. and Mrs. F. J. Kaiser were Springfield visitors yesterday.

Miss Dorothy Lukeman is making a visit of several days in Jacksonville.

Mrs. F. B. Six and Harriet Six, who for the past week have been visiting Mr. and Mrs. Jack Walsh of Quincy, returned home Thursday evening.

ROUT SCHOOL CLOSED THURSDAY

The Rout school, south of the city closed its school year Thursday with a basket dinner. In spite of the inclement weather a goodly number of the parents were present to enjoy the day with their children. A patriotic program was carried out. The school was decorated in flags and bunting for the occasion and a flag drill was given by the boys. Amy Harney acted as goddess of liberty and gave a reading on the national flag. Miss Elizabeth Connolly, the teacher, has taught the school for three years and has been very successful in her work. She was offered the school this coming year, but decided to take appointment to the Yatesville school.

Yes, the Lady Is Here NOW!

The special demonstrator from the Round Oak Factory, at Dowagiac, Michigan, is here to show and prove the added convenience, economy, and desirability of that genuinely good Round Oak 3-Fuel Combination Range.

She Invites the Opportunity of showing

1. Why this range warms the kitchen in winter.
2. Why the kitchen is cool and cheery in summer.
3. Why it burns all fuels successfully.
4. Why, we believe, you should have one now—this spring.

May We Urge You to See It?

This is the Range that uses gas, coal or wood as fuel, producing supremely satisfactory results. It embodies all of the cooking facilities and conveniences for both the full-sized coal range and the fuels—separately or together. It has—ion for burning wood. A single large oven bakes perfectly with either or all fuels—separately or together. I have—well, we can show you much better than we can possibly explain in print.

FREE!

9-Piece Aluminum Set

will be give FREE to every purchaser of a Round Oak 3-Fuel Combination Range this week.

Special Inducements to Those Who Choose Round Oak 3 - Fuel Ranges During Demonstration. To Be Installed Now or Later.

Don't Fail to Come and See This Wonderful Range in Operation

If you need a new coal or gas range "sometime" surely you need it now! Why not exercise your good judgment by learning all about this unique range—by taking full advantage of the attractive inducements now in effect?

It Does the Work of Two Ranges; Only Takes One-half the Space

2:45—Eureka College, L. O. Lehman.

3:10—"Facing the Life Needs of Young People," Miss Pearl Cynthia Maus, Cincinnati, National Sup't. of the Secondary Dept. of Bible School.

3:50—Conference on Secondary Work, led by Miss Maus.

4:10—Business.

Adjournment.

Those out of town attending the convention are: Miss Lizzie Batachak, E. R. Litter, Mrs. Nancy Rawlings, Mrs. Scott Carter, Mrs. E. M. Powell, Mrs. Geo. Harney, Mrs. L. D. McCarty, Mrs. S. M. Carlson, Miss Florence Rice, Mrs. Mae Cornett, Mrs. C. K. Moore, Mrs. Whorton, Mrs. Stella Peck, all of Jacksonville; Mrs. C. G. Cantrell, Mrs. C. O. Baylis, Miss Alma Deterding, Mrs. S. M. Henderson, all of Concord—Mrs. Andrew Ponder, Mrs. Floyd Taylor, of Chambersburg; Miss Alice Benson, Mrs. D. N. Wetzel, of Pittsfield; Mrs. Campbell, Mrs. C. H. Gibbs, of Lynnville; Rev. J. Todd, Franklin, Mrs. J. W. Parlier, Carthage; Mrs. Lindsay of Springfield.

Mrs. Lloyd Ross of Jacksonville is visiting her mother, Mrs. Ada Funk.

Mrs. Clark of Bluffs visited Mrs. Earl Fountain Tuesday.

NOTICE TO CONTRACTORS

Sealed bids will be received for the construction of the improvement of Mound Avenue, from the West line of Park Street, running West to the City Limits, by the Board of Local Improvements of the City of Jacksonville, Illinois, until the 14th day of May A. D. 1917, at the hour of 3 o'clock p. m. at its office in the City Hall in said City, at which time and place said bids will be publicly opened.

It is estimated that there will be about 6986 square yards of Sheet Asphalt, 2 inches thick paving with a one inch binder, on a 5 inch Concrete base, 4560 linear feet of combined curb and gutter, 2229 cubic yards of excavating and grading, 144 feet of Marginal Limestone Header, 290 linear feet of vitrified clay sewer pipe, 10 inch internal diameter; 3 Brick Catch Basins and 3 Cast Iron Storm Water Inlets.

Said improvement shall be constructed and made in accordance with the ordinance providing for the same and the maps, plans, profiles and specifications for the same on file in the office of the City Clerk of said City, or plans and specifications can be had upon deposit of \$3.50 with the City Engineer to cover cost of making the same.

Proposals must be made on blanks furnished by said Board and in compliance with the instructions thereto attached, which can be had on application to the City Engineer, and must be accompanied by cash or by a check payable to the order of the President of said Board of Local Improvements, in his official capacity, certified by a responsible bank, for an amount not less than ten (10) per cent of the aggregate of the proposal.

Bidders will examine the ordinance, maps, plans, profiles and specifications, and also the locality in which said work is to be done, and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work.

The Contractor shall be paid in cash or bonds, bond to draw interest at the rate of five (5) per cent per annum.

The Board of Local Improvements reserves the right to reject any and all bids, as authorized by law.

Dated, Jacksonville, Illinois, May 3rd, 1917.

Henry J. Rodgers,
Wm. Widmayer, Secretary,
Edgar Martin,
Jerry Cox,
Joshua Vasconcellos.

Board of Local Improvements of the City of Jacksonville, Illinois.

A NOTED HORSE DEAD

McKinney, 2:11 1-2, passed away at the home of his owner in New York. The Horse Review of recent date notes the death of the great McKinney, 2:11 1-2, and says: McKinney, the renowned son of Alcyon, 2:27 and Rosa Sprague is dead. The end came at Empire City Farms, Cuba, New York, F. B. Simpson, owner, and was due to the infirmities of old age, the great progenitor having passed his thirtieth milestone.

He took his record in the second heat of an eight heat race which he won. It shows that he started in 21 races, won 17 and was one each, 2nd, 3rd and 4th. His complete winnings were \$6,865.

His best son was Zombro who took a three year old record of 2:13 and won 13 races, the largest number ever credited to a trotter. In one season as a sire of 2:10 performers he ranked second having 28 to his credit. Cots sired by him have won \$388,615 in races.

McKinney is represented in Morgan county by a grown son, Amorist, 2:12 1-4.

MILITARY TRAINING FOR BASEBALL TEAMS

American Association to Institute Course in New Future—Will Be Open to Public as Well as Players—Affords Opportunity for Learning Rudiments of Military Drill.

Louisville, Ky. May 3.—A course in military training open to the public as well as the players of the various baseball teams in the circuit will be instituted within two weeks, according to President Thomas J. Hickey, of the American Association.

"Every club in the league has approved the plan," President Hickey said in making the announcement, "and we hope to have it in operation within two weeks, first in the eastern cities, and a few days later in the western end of the circuit."

"The War Department had been asked to supply a regular army man as drill master who will be stationed at the ball park in each American Association city. During the time the home club is engaged in games on its own grounds he will drill the players as well as the public. When the team is away from home he will give his attention entirely to those citizens who desire to avail themselves of his instruction. Each drill master will be paid \$100 a month by the American Association in addition to his regular army salary, according to present plans."

"The ball parks will be open to the public for drill morning afternoon and evening. In this way it is hoped that everyone, regardless of his hours of leisure, who wishes to begin the task of fitting himself for military service will be able to avail himself of the instruction."

"Two objects, one with a selfish element, and the other having in it only the desire to be of service to the country, have actuated the club owners in taking up the plan."

"In the first instance it is realized that ball players are not in an occupation which may be called absolutely necessary. We realize that they are necessarily in fine physical liability to military service would be among the first called to the colors."

"It has been indicated, however, that it will be the policy of the war Department to leave undisturbed in their occupations all men who may be subject to service, if they are receiving military instruction. Thus by instituting military training the clubs are guarding against the loss which might be occasioned by the sudden calling up of the younger members of each team."

"In the second instance it is felt that a public service will be performed by affording to the citizens of American Association cities, an opportunity for learning at least the rudiments of military drill."

"Within a few months hundreds and thousands of young men probably will be called upon for training from American Association cities, with the institution of military training in the ball parks the players

THE ROUND OAK RANGE EXHIBIT AT ANDRE & ANDRE'S

A Wonderful Cooking Apparatus Which Will Appeal to Every Good Housewife.

The Round Oak Range which is now being exhibited at the store of Andre & Andre, certainly leaves nothing more to be desired in a cooking apparatus. It is a combination gas stove and coal range in one article; either fuel can be used without any change in the stove or both may be used at the same time if desired. It bakes and does all other work simply to perfection and has numerous advantages peculiar to itself. It is very handsome in appearance and though it is two stoves in one it is compact and does not occupy an undue amount of space. The material of which it is constructed makes blacking unnecessary, which is a great desideratum.

By an ingenious arrangement no matches are needed to light the gas, the turning of the keys performing that. The oven is unusually large in every direction. It has a separate broiler which is adjustable, near to or far from the flame. Some fine samples of its work are on exhibition and its merits will be fully explained to all who call.

Mrs. S. B. Mathews and daughter and Mrs. R. C. Sullins and son have returned to Beardstown after a brief visit with relatives and friends in this city.

RELEASED ON BOND.
Willis Swan, colored, who was arrested several weeks ago, was released on bond Thursday. Swan was charged with a statutory offense and was committed to jail. Recently he has been sick and physicians are of the opinion that he is suffering from incipient tuberculosis. The matter was taken up with State Attorney Robinson and the necessary bond was fixed and given.

CHICAGO DOWNS REDS IN A BATTING BEE

CUBS GOT FIFTEEN HITS OFF
RING AND PERRY

Cueto stands in Left Field as if in a
trance and Wolter's long fly
comes within a few feet of hit-
ting him on the head—Brooklyn
wins from Giants in ten innings.

Chicago, May 3.—Chicago defeat-
ed Cincinnati 10 to 3, in a batting
bee today. The visitors used two
pitchers and each was hit hard. The
feature of the game was Wolter's
double in the third inning. Cueto
stood in left field with his hands on
his knees as if in a trance and Wol-
ter's long fly came within a few feet
of hitting him on the head. Neale
ran from center field and fielded the
ball before Cueto was aware that
the ball was near him.

Brooklyn 4; New York 1
New York, May 3.—Pitcher
Coombs of Brooklyn won his eleventh
straight game from New York
here today in ten innings. New
York's first beat New York in 1911
world series and since joining
Brooklyn in 1915 he has won ten
games from McGraw's team. Benton
pitched well for New York un-
til the tenth inning when Brooklyn
scored three runs on singles by Mil-
ler and Johnston, Fletcher's fumble
and a triple by Myers.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on
the sides of your shoe to get away
from those awful corn-pains, there's
only one common-sense thing to do.

Use "Gets-It." Your Corns Won't
Swell in Water. Besides, They'll
Survive, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the
corn right away. Pain and inflam-
mation will disappear, the corn will
begin to shrivel from that instant—
then it loosens and falls right off.
There's no other corn-remover in
the world that acts like "Gets-It."
No new discovery has been made in
corn-removers since "Gets-It" was
born. Don't forget that fact. "Gets-
It" does away forever with the use
of salves that irritate, bandages that
make a bundle of your toe, plasters
that hold the work, knives and
scissors that draw blood. Use "Gets-
It"—no more digging or cutting.

"Gets-It" is sold everywhere. See a
bottle, or sent on receipt of price by
E. Lawrence & Co., Chicago, Ill.

Sold in Jacksonville and recom-
mended as the world's best corn re-
mover by Armstrong's drug store, Con-
vict & Shreve and J. A. Obermeyer.

CLEVELAND WINS FROM SOX IN NINTH INNING

CHICAGO MAKES ITS RUN IN THE
FIRST.

Cicotte Passes, Chapman, Forcing
Evans Across with the Winning
Run—Boston Blanks Philadelphia
in a Pitching Duel Between Bush
and Leonard.

Cleveland, O., May 3.—Cleveland
won in the ninth inning from Chi-
cago today 2 to 1. Chicago made its
run in the first inning in the final
round Cleveland made its two. Wood
was hurt sliding into second and
Evans took his place. Allison's single
filled the bases. Cicotte replaced
Scott and passed Chapman forcing
Evans across with the winning run.

HOW TO GET STRONG

A Simple Remedy

Whatever the cause, we want to
say to every person who needs
strength, you need Vinol as it is the
most efficient strength creator we
have in our store. Here is proof
from Dorchester, Mass.:

"I don't know what we would do
without Vinol in our family. I was
weak, nervous and run-down as the
result of an operation, and Vinol re-
stored my strength. Then Grand-
mother had a nervous breakdown,
and Vinol built her up and restored
her health and strength after every-
thing else had failed. We have used
Vinol for thirteen years in our fam-
ily, and would not be without it in
the house." Myrtle L. Healy, Dor-
chester, Mass.

We believe in Vinol because we
know it is a great strength creator—
due to the beef and cod liver pep-
tones, iron and manganese pepton-
ates and glycerophosphates, all dis-
solved in a pure medicinal wine, so
we always return the purchase
money if Vinol fails to benefit those
who buy it.

Lee P. Allcott, druggist, Jackson-
ville. Also at the leading drug store
in all Illinois towns.—Adv.

HERE AT HOME

Jacksonville Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Jacksonville citizen:

J. B. Scaver, blacksmith, 218 W. Morgan St., Jacksonville, says: "I had pains in the small of my back and when I bent over, it was hard for me to get up again and my kidneys were out of order. I used Doan's Kidney Pills and they regulated the action of my kidneys and stopped the pain in my back."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Scaver had. Foster-Milburn Co., Props., Buffalo, N. Y.

GIVES FACTS CONCERNING MUNITION WORKERS

U. S. Department of Labor Bulletin Contains Statistics in Connection With British Industries—Indicates Sunday Labor is Not Profitable—Reports on Special Industrial Diseases

Hours, fatigue, and health in British munition factories is the title of Bulletin 221, just issued by the Bureau of Labor Statistics of the U. S. Department of Labor as the first of a series of bulletins prepared at the instance of the Council of National Defense for the purpose of giving wide circulation to the experiences of Great Britain, France, Canada, and other countries in dealing with labor in the production of the largest quantity of munitions in the shortest space of time. The bulletin contains the reprint of 3 memoranda published by the British Health of Munition Workers Committee which was appointed in September, 1915, "to consider and advise in questions of industrial fatigue, hours of labor,

REPORTS RECOVERY OF PREVIOUS LOSS

Local Woman Declares She's Rapidly Regaining Weight Now

SAYS TANLAC IS CAUSE

New Medicine Aided Her After Others Had Failed, Mrs. Tapscott Asserts.

"I had lost twenty-two pounds in weight and simply felt miserable, but since taking Tanlac, I'm gaining in weight every day and I'm not a bit nervous and irritable as I was before," Mrs. Alice Tapscott, wife of an employee of the National Express Co., of 603 Sherman street, told the Tanlac Man on April 25.

"My case was diagnosed by some as ptomaine poisoning and then others thought it to be stomach trouble," Mrs. Tapscott continued. "I had been troubled for the past two years. I always felt distressed for two or three hours after meals. Gas accumulations in my stomach made me feel terribly bloated. I couldn't go to sleep at night until after midnight."

"I read about Tanlac in the St. Louis Times and finally decided to try the new medicine. Three bottles of Tanlac have given me more relief than all the other medicines I've taken in the last two years. My nervousness has entirely disappeared and I'm not irritable anymore. The gas formations and bloating no longer follow my meals. I sleep soundly at night, too."

"I want my friends to derive the benefits I've derived from Tanlac and I hope they will try the new medicine."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, nervousness, sleeplessness, loss of appetite and the like.

Tanlac is now being introduced in Jacksonville at the Cover-Shreve Drug Co., East Side store where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Cover-Shreve Drug Co. It is sold in Waverly at the Wyle Drug Co., in New Berlin at the New Berlin Drug Company in Ashland at H. O. Brownback's and in Versailles at A. G. Bates' drug store.

and other matters affecting the personal health and physical efficiency of workers in munition factories and workshops." These memoranda deal with Sunday labor, hours of work, output in relation to hours of work, industrial fatigue and its causes, sickness and injury, special industrial diseases, ventilation and lighting in munition factories and workshops, the effects of industrial conditions upon eyesight.

Sunday Work a Mistake

From a perusal of these memoranda it appears that Sunday labor, in the opinion of the committee is not profitable and that continuous work "is a profound mistake" and does not lead to increased output. That a system of shifts altho impracticable in some cases, is to be preferred to overtime since the latter taxes the strength of workers too severely, results in loss of time because of exhaustion and sickness, and curtails unduly the period of rest; that night work should be discouraged, that output cannot be maintained at the highest level for any considerable period if the conditions are such as to lead to excessive fatigue and to deterioration in the health of the worker, with a recommendation that hours should not exceed 56 here we see for men engaged in heavy labor, or 44 for men engaged in moderately heavy labor, while 64 should be a maximum.

The committee's study of industrial fatigue and its causes sums up its own studies of hours of labor, emphasizing the importance of regularity of hours and of daily and weekly rests made with due consideration of the character of the work performed. In its report on sickness and injury the committee points out certain injurious conditions which should be guarded against as likely to diminish seriously the efficiency of the labor force. "To conserve energy and efficiency is, other things being equal, the way to improve output." The medical examination of all workers before employment is recommended, and it is suggested that factories should provide proper sanitary facilities, safeguard machinery, make arrangements for adequate medical and nurse schemes, etc. The value of first-aid is emphasized.

Industrial Diseases

The report on special industrial diseases gives the causes, methods of prevention, and treatment for the principal industrial diseases which have been found to affect munition workers. Particular attention is directed to the importance of adequate lighting and ventilation which are absolutely essential for the maintenance of health and comfort and therefore, the efficiency and capacity of the workers. Special measures to prevent undue strain upon eyesight and to reduce the liability of accidents to a minimum are recommended.

In addition to a presentation of these memoranda the bulletin includes the British Treasury Agreement as to Trade-Union rules affecting restriction of output, the Munitions of War Act of 1915, and the Amendment thereto of 1916, the rules for constituting and regulating munitions tribunals in England and Wales, and a brief account of compulsory arbitration in the munitions industry in France.

The committee calls attention to the added danger of industrial accidents: "Moreover at the present time, the introduction of new labor, and of employees unaccustomed to the processes concerned, particularly in conjunction with the need for speed and pressure, overtime, and night work with the consequent fatigue, must inevitably lead to greater risk of accident."

This corresponds exactly with American experience as stated in a Safety Bulletin on the War on Industrial Accidents, issued by the United Mutual Compensation Insurance Corporation.

"The war has caused an enormous increase in the number, severity and cost of industrial accidents, especially during the year 1916."

The principal reasons for this large increase of industrial accidents are as follows:

1. Employment of incompetent, unskilled and inefficient labor.
2. Increased pressure for larger output.
3. Disregard and non-enforcement of Safety Rules and Regulations.

During the past few months, the accident rate has been somewhat reduced, because employees have become more accustomed to their work. However, many of our industrial workers will now exist to fight for our country, and the services of many skilled workmen will be placed at the disposal of the War Department. To fill their places, new employees will have to be hired, who are unfamiliar with their jobs. In fact, women will probably fill the places of many of the men who are called for service. With these changed conditions there will be even greater necessity for Safety measures to prevent accidents."

MEREDOSIA

Robert Duer of Springfield visited friends here Monday.

Hal Naylor and Floyd Giger who have been in Flint, Mich., for some time returned home Tuesday. Hal has had an attack of appendicitis and came home to recuperate.

Harry Beauchamp left Monday evening for Lansing, Mich. He has employment in the Reo factory in that place.

Mr. and Mrs. W. G. Looman went to Jacksonville Monday evening, where the latter entered Dr. Day's hospital for an operation the following day. The operation was successful and Mrs. Looman is reported doing nicely.

H. E. Harms and daughter Delonise were Jacksonville visitors on Tuesday.

Miss Ina Bowling has sufficiently recovered from her recent operation for appendicitis to be able to resume her duties at the telephone office.

C. H. James left Tuesday morning for Decatur for a short stay.

Carl Hall of the southeastern part of the county was transacting business in the city yesterday.

ILLINOIS RIVER ANNUAL FISH PRODUCTION LARGE

Said to Surpass Any Other River in U. S. With Exception of Columbia—Bill Proposes Removal of Flood Season to Permit Some Fishing.

Resources of Illinois fish have been attested by Henry V. Meeteren, a member of the state game and fish commission, who declares the Illinois river, according to statistics furnished by reliable authorities, produced more fish actually than any other river in the United States with the exception of the Columbia river.

"There will be more fish in the Illinois river than ever before when the season opens, September 1," Mr. Meeteren says. "This is because the commission rescued from the drainage district at Meredosia 15,000,000 fish and placed them in the river at various points."

Mr. Meeteren says these fish are mostly of the rough variety, carp and buffalo with a few black bass, not much eaten by persons here but shipped by thousands of pounds to New York and other large cities in the east and consumed by the people in the foreign settlements."

Pressure is now brought to bear on the commission to obtain its support of a bill in the legislature which would remove the closed season, now in force, to permit fishing with seines immediately.

The closed season extends from April 15 to July 1, except for white fish and lake trout, which are not protected. Seining, however, is prohibited before Sept. 1. These restrictions on fishing are to protect the fish during the spawning season.

Fish are scarce in Lake Michigan. Mr. Meeteren says, because the state has not seen fit to establish hatcheries on the lake, but a million pounds of fish are shipped into Chicago every week from Lake Erie where fish are plentiful.

It has been suggested that the despised gar fish, now thrown away by all fishermen, might be made a commercial fish if some enterprising person or company would establish a gar smoking establishment. The gar fish, it is said is very palatable when smoked and can scarcely be distinguished from sturgeon which sells for sixty cents a pound.

MISS LOUISE D. MILLER

PRAISED FOR CONCERT WORK

Moulton was made recently that Miss Louise D. Miller, a graduate of the Woman's college in voice and a pupil of Mrs. Florence Pierro Hartmann, was to sing with the Minneapolis Symphony orchestra, on the appearance of that organization in St. Joseph, Mo. The concert took place Saturday night. Under the caption of "The Stars Last Night" the St. Joseph Gazette says:

Miss Miller, whom the audience "discovered" at the performance the previous afternoon, was hailed with glad acclaim when she appeared last night and sang "Caro Me Nono" from "Rigoletto", with a grace and warmth of expression that held the audience in rapt attention and led to such tremendous applause that she was recalled. Then she gave Cadman's "From the Land of the Sky Blue Water" and sang it with such ability that the audience, momentarily comparing her all the time with Alma Gluck, broke out in ecstatic applause at the close.

Keeley Institute

For the Treatment of Liquor and Drug Using

Successful for years in difficult cases of both sexes. Patient's improvement begins immediately—no confinement; no use of nauseating or dangerous drugs. Treatment administered only by skilled, kindly physicians. Pleasant surroundings. Home remedies for tobacco using and nervousness.

Bullet sent in plain envelope. Write today.

The Original, Scientific Treatment

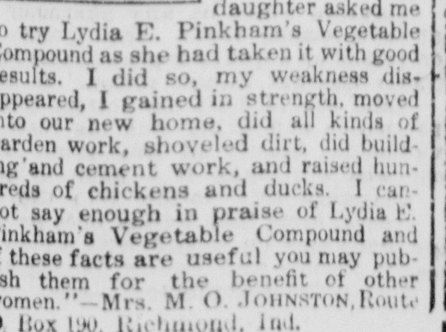

THE KEELEY INSTITUTE - Dwight, Ill.

CLIMBED STAIRS ON HER HANDS

Too Ill to Walk Upright. Operation Advised. Saved by Lydia E. Pinkham's Vegetable Compound.

This woman now raises chickens and does manual labor. Read her story:

Richmond, Ind.—"For two years I was so sick and weak with troubles from my age that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared. I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O. JOHNSTON, Route D, Box 120, Richmond, Ind.

SALVATION ARMY CAMPAIGN BEGINS SOON

Mrs. Thomas Estill Coming to Make Addresses—An Interesting Program Outlined

Arrangements are practically complete for the coming of Mrs. Commissioner Thomas Estill for a special campaign under auspices of the Salvation Army. Meetings are scheduled for Saturday and Sunday nights at the Salvation Army chapel, and a special feature will be the lecture by Mrs. Estill at Central Christian church Sunday morning at 10:30 o'clock. The theme will be "Broken Womanhood," and the many years spent by Mrs. Estill in work with women and girls will be her for discussion of the subject. Wherever this gifted woman has appeared as a lecturer the comments of both press and public have been very commendatory as this is her first Jacksonville engagement. Citizens will doubtless be present in large numbers to hear her. Mrs. Estill's Sunday night theme will be "Giantic Battle for Souls."

The program as announced for the meeting Saturday evening at 8 o'clock is as follows:

Opening Song..... Selected Prayer.
Introduction of Mrs. Estill.....
Remarks..... Adl. Stretton
Remarks..... Mrs. Commissioner Estill
Vocal Selection.....
..... Young Ladies' Quartette
Recitation—"The Meaning of the American Flag" Willie Froegge
Violin Solo—"Simple Aven".....
..... Lt. Grace Smith
Scarf Drill..... Ten Juniors
Clarinet Duet.....
Mr. S. L. Fletcher, C. C. Clara
M. Fletcher.
Vocal Selection..... Ten Juniors
Dialogue—Mary and the Swallow
..... Hembrough Girls
Pantomime—"Goodbye, Pharaoh".....
..... Lt. Estill
Offering.....
Selection..... Band
Closing Remarks..... Mrs. Estill
Benediction.....

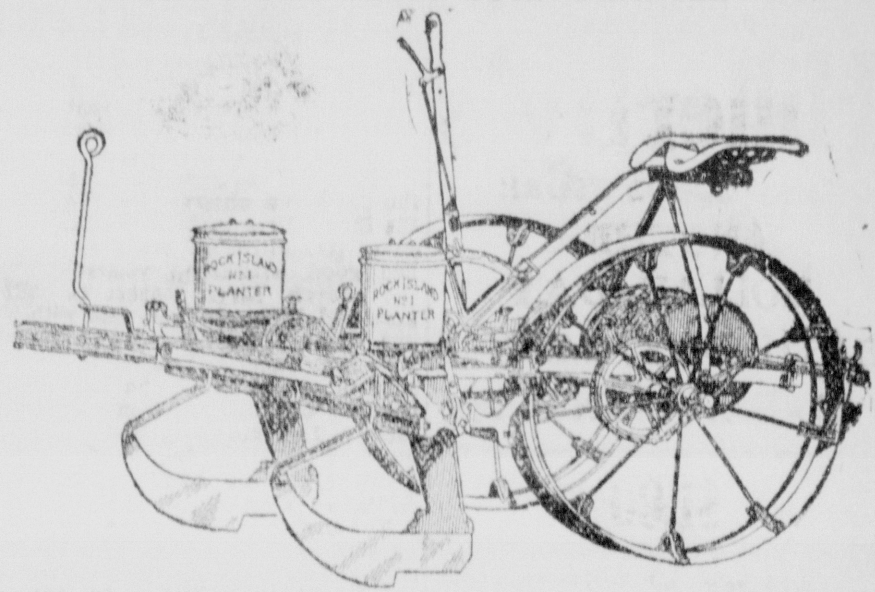

Mr. and Mrs. John Bryson have been called to Chicago by the serious illness of their daughter Hazel who is suffering an attack of typhoid fever.

Francis Haligan of Beards' was in spending a few days with friends in the city.

MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE

Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto-Intoxication, Yellow Jaundice, Acute Indigestion, Appendicitis, Gastritis, and other fatal ailments result from Stomach Trouble. Thousands of stomach sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for stomach ailment. For sale by Corner-Shreve Drug store and druggists everywhere.

THE ROCK ISLAND CORN PLANTER

We are now selling and demonstrating the famous Rock Island No. 1 Planter. This is the best planter that ever entered a field for Durability, Dependability and Accuracy of drop. Come in and let us prove what we say. Seeing is believing.

Also garden cultivators, seeders, troughs, metal chicken coops, pumps and pump repairing. Rubber tires put on, etc.

P. W. FOX

Implements, Pumps, Buggies, Etc.

111-13-15 S. West St. Phones—Bell 306, Ill. 1320

Senreco

The double-service tooth paste, keeps teeth clean AND GUMS HEALTHY.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

SENRECO IS A WONDERFUL CLEANSER.

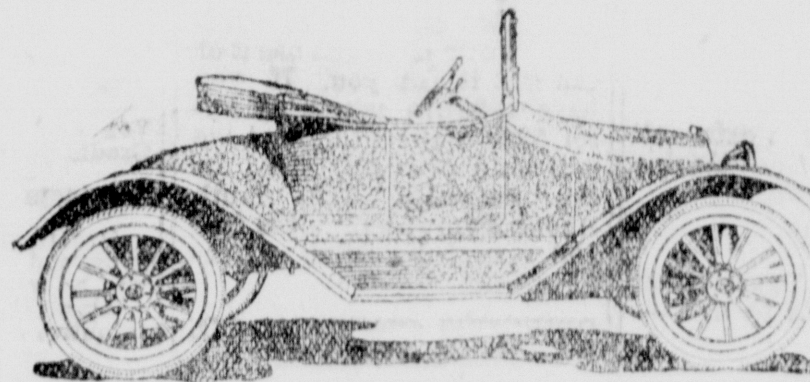

In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it—Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggists or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste—25 cents for a large 2 ounce tube.

**CHILD WELFARE SERVICE
AT CHRISTIAN CHURCH**

Address by Dr. Milligan Included
Timely Advice to Parents—Program Interesting and Profitable

With the afternoon program at the Christian church and the one in the David Prince building in the evening the child's welfare subject had good attention yesterday. At the church Mrs. Robert L. Stice greatly delighted every one with her fine music. Dr. Josephine Milligan gave an excellent address on the subject of the child and S. W. Nichols told of the children in other lands. The meeting was under the auspices of the federation of women's clubs of the city and Mrs. Benjamin Linton presided.

The first number was a piano solo by Mrs. Stice who played with rare skill. Then came the address by Dr. Josephine Milligan, an acknowledged authority on the diseases and hygiene of children. A few suggestions made by Dr. Milligan are given:

Exits Thru Heredity

"One prime cause of deficient children is heredity. The state should take greater care in this matter. We exercise greatest care in the breeding of animals and why should not the human race be treated as well?"

"The idiot and feeble minded should never be permitted to breed. There are many efforts at present being put forth to avoid diseases which tend to weaken the offspring. Many children are blind from wholly preventable causes as is seen in any institution. As Dr. Holmes said, if we want normal children we must begin with the grandparents so to day we should strive to see to it children are blind from wholly preventable diseases."

"Pre-natal conditions should have careful consideration. So many persons regard the bearing of children as an ordinary circumstance and fail to take the means and precautions necessary for the production of healthy offspring who suffer all the while because of the neglect of the parents. Proper nourishment should be abundant; hard work should be avoided and this needs special attention in cases in which the mother has to help in the support of the family. It is always wise for the expectant mother to place herself under the care of a doctor and take all proper means to prepare herself for the duty she has undertaken. Registration of births should never be neglected.

"Food is another prime requisite, and a normal, properly fed child is supposed to triple its weight the first year. Nothing in all the world can equal the food from the mother's breast and every mother should use all possible effort to be able to nurse her baby. If wholly unable to do so then cow's milk with modifications is the best substitute. All advertised foods are not equal to the milk. Sample babies may be shown but they are exceptional.

The Child Under School Age
"The child from 18 months of age till old enough to go to school passes through a period requiring care. They need exercise but the mother whose child is just too large for the baby buggy should be careful in taking the little one with her when shopping lest the amount of walking be far too much. Eating should be regular avoiding cookies and candy between meals. Bananas are bad for the child under six. He should sleep 12 to 14 hours a day. He should attend the kindergarten which should be a part of our public school system.

"It is not at all to the credit of Jacksonville that the kindergarten is not supported by the public purse. The efforts of its friends have been very great in maintaining it. The public school system is generally good, teachers capable but so far there is much yet needed in the way of school buildings the great advance is being made in that direction. The open window school building is best. Use more coal and warmer clothing and give the children plenty of fresh air.

"Last year there were in the county 29 still births and in the city 19 and many of these might have been prevented. In six months in the county last year there were 21 cases of chicken pox, 141 of whooping cough, 93 measles, diphtheria, tetanus, I hope for the time when mumps, measles and whooping cough will be unknown. It is a mistake for a mother to desire these things for her children when small. Effectually isolate the sufferer and banish the childish complaints. I may not live to see it but I hope the day will come when these diseases are unknown.

"Great care should be taken when the young persons are coming to maturity. They should be taught many things important for them to learn and know. They should be carefully developed and taught the functions of the body and all that pertains to it.

"A touching happy and impressive feature of the program was the introduction of the 37 pupils of the open air school so capably taught by Miss Laura Hammond and her assistant. The children filed in in perfect order, arrayed in felt boots and dresses like veritable Esquimaux and sang in a sweet, childish manner four songs without flinching or making a slip or error. They were living examples of what may be accomplished with children affected with symptoms of disease. They are learning and progressing when it was well nigh impossible in the regular schools."

S. W. Nichols spoke next of children in other lands, Egypt, Palestine, Turkey, Japan, China, the Philippines, Germany, England, Italy, Switzerland and other lands.

Mrs. Robert L. Stice then sang with great acceptance three selections: Song of the Birds... Ward Stevens You and I... Lehman Cradle Song... Brahms

DEATHS AT SOLDIERS' HOME.
Record of deaths at Illinois Soldiers' and Sailors' Home during April was as follows:

Alexander Glasgow, Co. G, 102 Ill. Infantry, age 83.
Thomas A. Swan, Co. K, 43 Ill. Infantry, age 77.
James Doyle, Co. C, 49 Mo. Infantry, age 71.

PROBATE COURT
In the estate of Eliza Jane Flinn, the petition for private sale of personal property was allowed.

In the estate of W. R. Moody, the widow's relinquishment and selection was approved.

In the estate of Lewis Rexroat, letters of administration were ordered to issue to William and Alva Rexroat.

In the estate of W. F. Long, report was approved and in the same estate the widow's relinquishment and selection was approved.

J. C. Lawson of the southwest part of the county visited the city yesterday.

THIS PRESCRIPTION IS FOR YOU.
If you suffer from hot flashes or dizziness, fainting spells, hysteria, headache, bearing down pains, nervousness—all are symptoms of irregularity and female disturbances and are not beyond relief.

Dr. Pierce's Favorite Prescription is directed to the real cause and promptly removes the disease, suppresses the pains and nervous symptoms and thereby brings comfort in the place of prolonged misery.

It has been sold by druggists for nearly 50 years, in fluid form, at \$1.00 per bottle, giving general satisfaction. It can now be had in sugar-coated tablet form. Sold by all medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Every sick woman may consult us by letter, absolutely free as without fee. Faculty of the Invalid's Hotel, Dr. J. M. Pierce, President, 603 Main St., Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Pyrol 523
Reg. Trade Mark
A wonderful discovery made by Dr. E. L. Griffith, a dentist of Freeport, Ill., for the prevention and cure of Pyorrhea, soft, sore and bleeding gums. Have the tartar removed from the teeth and then use Pyrol 523 the exclusive home remedy. It will relieve the congestion and soreness at once and will positively cure in the first and second stages. The third stage is incurable. Don't delay. Get a bottle of Pyrol 523. Your druggist has it or can get it for you. If you have trouble procuring Pyrol 523, send \$1.00 and we will send prepaid. Send for the pamphlet, "The Truth About Pyorrhea." It is free and very interesting and instructive.

WELL-KNOWN PEORIA WOMAN SPEAKS.
Peoria, Ill.—"For a whole year I was down in bed and under the doctor's care. I weighed 90 pounds when I should have weighed 150 or more. Nothing seemed to get me up or give me strength until I learned of 'Favorite Prescription.' A neighbor dropped in and told me what 'Favorite Prescription' had done for his wife. I stopped the doctor's medicine. After using the 'Prescription' I gained very fast. The second bottle completely restored my strength, and my trouble has never come back. Since I used 'Favorite Prescription' I have weighed at times over 150 pounds. It gives more strength than any other remedy."—Mrs. Lou Jones, 3200 N. Adams St., Peoria, Ill.

CHILD WELFARE SERVICE AT CHRISTIAN CHURCH

**INDIANA COLLEGES TAKE
UP MILITARY TRAINING**

Purdue University Has Cadet Body of 1,000—Work at Some Institutions Is Voluntary, at Others Compulsory—Smaller Colleges Evince Interest in Various Ways.

Indianapolis, May 3.—Indiana colleges and universities now resemble military training camps of various sizes in many respects as practically all of the schools are giving the students physical or military work in some form, which will help make better soldiers of them, should they enlist in the army. At some of the institutions the work is voluntary, at others compulsory. Several thousand young men, and boys are in training. For young women, as well as some of the young men, Red Cross work has also opened up a field for activity.

The largest body of trained students is at Purdue University which has a cadet body of 1,000. Notre Dame is second with 600. Purdue is a government land grant university and military training there is compulsory. The institution is providing agricultural experts in one department, and in others is training hundreds of engineers. Students are not alone in showing a military spirit at Purdue, as members of the faculty drill with them. The work given the cadets consists of mimic battles and field maneuvers twice a week.

Compulsory Instruction at Notre Dame
Notre Dame voluntarily has made military instruction compulsory. Eighty-five percent of the students at the university have joined the corps and receive regular instructions in the work.

Indiana University, which only recently adopted voluntary military training already has about 350 students drilling under a regular army officer. More than 400 co-eds have enrolled in classes in Red Cross work a portion of the campus will be placed under cultivation by the students.

At Franklin College, where the instruction is elective, 80 per cent of the students are enrolled in the military training classes. The work is given for two hours each day to one company at a time.

The majority of the 350 students in Vabash College, are being trained by a Culver Military Academy officer. Military instruction recently was added to the Wabash curriculum.

The three schools of Terre Haute are engaged in war preparation. Students at Rose Polytechnic must take military instruction and at the Indiana State Normal patriotism is much in evidence. The men are organizing companies for training and the women have formed about thirty units of the Red Cross. At St. Mary-of-the-Woods, the Sisters of Providence college, the girls are being taught first aid.

At Fort Wayne, Concordia college a school of the German Lutheran Church, extensive gymnastic work is required of the boys. A United States Army officer gives them instructions.

Intensive Work at Culver.
Culver Military Academy is widely known as a military and naval school, and while its enrollment is not as large as some of the other educational institutions in the state it probably is doing the most intensive work in training young men to be soldiers and sailors and officers of any school in Indiana. The cadet corps is composed of 500 young men; in addition to them special short courses are being given for reserve officers and others.

A number of the smaller colleges, while not requiring or giving military instruction are supporting the enlistment movement. Students of Earlham, at Richmond, the Quaker school, are getting ready for a call to arms, it is said. Many of the men students are drillers and the co-eds are evincing their interest in various ways.

Vincennes University is directing much of its efforts toward food production. Hanover College has taken up war service and daily drills are given about 75 percent of the students. North Manchester College and St. Meinrad, altho they have not yet started active military instruction are showing much interest. Valparaiso already has requested an officer to give instructions there. The normal colleges at Muncie and Marion have lost a number of students by enlistment in the army. The State College at Angola has raised a company of 100 which is drilling daily.

GIRLS! MAKE LEMON LOTION TO WHITEN AND BEAUTIFY SKIN

In all weathers the skin and complexion can be kept wonderfully clear, soft and white by the use of this inexpensive lemon lotion which any girl or woman can easily prepare.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Evers woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smootheners and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion. It naturally should help to soften, freshen, bleach and bring out the roses and hidden beauty of any skin. Those who will make it a habit to gently massage this lotion into the face, neck, arms and hands once or twice daily may be repaid with a skin that is flexible and young looking and a peach-like complexion.—Adv.

WOMEN IN THE DAY'S NEWS

Many naval officers who have been detached from shore duty under war orders to join the fleet will be followed to their stations by their wives. The "navy women" have found a way to be with their husbands during the war, and that is to establish tented colonies on the water's edge, the exact locations to be concealed from the public for military reasons. The ships will be able to call from time to time, and in this way the officer's wives expect to see their husbands occasionally. From Washington alone, the wives of one hundred naval officers resident there have already abandoned the comforts and social diversions of the capital to pitch their tented colony "somewhere on the Atlantic coast."

Miss Margaret Gallagher and Miss Annie Milan, both expert shoeworkers of Brockton, Mass., have made together a pair of shoes for President Woodrow Wilson. The shoes are made of forty pieces of the finest calfskin, and are valued at over \$25.

Mrs. Susan Colgate, of Yonkers, N. Y., widow of James B. Colgate, millionaire and philanthropist, and the originator of the widely known Colgate toilet products, recently celebrated her 100th birthday. Mrs. Colgate is in feeble health, and received on the event only the members of her family.

Congresswoman Jeanette Rankin of Montana, whose "feminine vote" on the war declaration was the subject of such lively discussion, has again come to the fore for the modesty with which she severely avoided talking about herself in the Congressional Directory. As is known, Congressmen are requested to write their own biographies for that guide to the nation's legislators. It has also been a matter of knowledge that "the smallest men in Congress have the largest notices in the Congressional Directory," for reasons obvious as well as amusing. The "unaided efforts" and "insuperable difficulties" and "will conquering all obstacles" of many an early career are favorite themes for self-praise. Well, in the light of all this honorable precedent, the "Lady from Montana" took her pen in hand and wrote precisely this:

Miss Jeanette Rankin, Republican, Missoula.

Story's Exchange,

FARM PROPERTY

No. 331—Listed yesterday, a farm of 120 acres, three miles from county seat. Land in high state of cultivation. Good six room house, two barns, tool house, poultry house and other out buildings and excellent orchard of about 4 acres. Excellent location. To close an estate. Price \$60 per acre.

No. 169—Farm of 110 acres, mile and a half from good town on C. and A.; 30 acres blue grass pasture with some scattered white oak timber. Fine spring and tank. Good eight room house in first class condition; barn for 10 head of horses; a big hay and cattle barn, with other cribs and sheds, etc. 80 acres good farming land, well tilled. For a close in farm home with every convenience for stock and grain farming this is really a rare bargain.

CITY PROPERTY

(a) On Sandusky street, six room house, large lot, garden and chicken yard. \$2400.

(b) House of five rooms on Elm street. \$1000.

(c) Two houses of five rooms each in Second ward for \$1400 each. No. 711—In second ward a lot about 200 feet front by 226 deep, with two excellent six room houses, in first class condition. One house is modern in every way, has fine basement concreted, large cistern with force pump. A second house has good cellar, pump and sink inside, large barn, corn crib, chicken house and an abundance of fruit. Price \$7000 for entire property. Properties such as these in prime condition are seldom for sale. These will bear closest inspection.

No. 712—In fourth ward a house of nine rooms, modern, slate roof. Price \$2000.

MONEY
We still have money to lend on both city property and farm land.

Coal Storage In May

Mine owners long experienced in the business tell us that coal stored in May will be found next fall in better condition than coal stored in hot summer weather.

The reason is that coal as it comes from the mines is damp with moisture and evaporation is rapid when the sun pours on coal cars. The condition which follows makes coal more likely to "slack". We believe the statement of these men experienced in coal storage and pass the advice on to the public for what it is worth.

WHEAT MOUNTS TO LOFTIEST PRICES YET

Purchases That Appear to be Largely for Seaboard Account Aid Advance—Market Closes Nervous at 3 1/2 to 10 1/2 Cents Up

Chicago, May 3.—Loftiest prices yet in the wheat market here resulted today from purchases that appeared to be largely for seaboard account and that followed announcement of arrangements which seemed to indicate the failure of censorship methods to keep down quotations at Winnipeg. The market closed nervous, 2 1/2 to 10 1/2 net higher, with May at \$2.50 and July at \$2.25, to \$2.20.

Corn gained 1/2 to 2 1/2 and oats 1/2 to 1/2.

In provisions the outcome was a setback of 1/2 to 1/2.

Except for some brief interruptions during the first half of the day, the advance of the wheat market through the season was continuous and rapid. The earlier upturns were mainly in the nature of further responses to the disappearance of peace prospects whereas the passing bearish reactions were associated with a rumor that lack of sufficient food had caused wholesale desertions from the German army.

Security of contract wheat for immediate delivery in Chicago was emphasized by the payment of \$1.11 a bushel, the topmost price on record. May options also reached the highest point ever known, \$2.50, and at the end of the day were still holding that figure.

Corn rose with wheat. Corn as well as cash wheat touched a new record high level, No. 2 white corn bringing as much as \$1.65 a bushel.

Oats hardened with other grain.

Subsistence of peace talk weakened the provision market.
